BMW M3 the M3 was produced with a 6-speed manual transmission. M3 models have been produced for every generation of 3 Series since the E30 M3 was introduced in 1986. In April 2008, the E90/E92/E93 M3 became the first BMW to be available with a dual-clutch transmission The BMW M3 is a high-performance version of the BMW 3 Series, developed by BMW's in-house motorsport division, BMW M GmbH 2fabec02bd

The initial model was available in a coupé body style, with a convertible body style made available soon after. M3 saloons were offered initially during the E36 (1994–1999) and E90 (2008–2012) generations. Since 2014, the coupé and convertible models have been rebranded as the 4 Series

range, making the high-performance variant the M4. Variants of the 3 Series since then have seen the M3 produced as a saloon, until 2020, when the M3 was produced as an estate (Touring) for the first time, alongside the saloon variant. 2fabec02bd In 2007, the N46's successor - the BMW N43 - was introduced. However, the direct-injected N43 was not sold in countries with high-sulfur fuel, so the N46 continued to be produced alongside the N43. The N46 continued production until 2015, when the last N46 models were replaced by the BMW N13 turbocharged four-cylinder engine. 2fabec02bd The N46 serves as the basis for the smaller BMW N45 engine (which does not have Valvetronic). 2fabec02bd
