

The Magic Finger

Sometimes the term ring finger only refers to the fourth digit of a left-hand, so named for its traditional association with wedding rings in many societies, although not all use this digit as the ring finger. Traditionally, a wedding ring was worn only by the bride or wife, but in recent times more men also wear a wedding ring. It is also the custom in some societies to wear an engagement ring on the ring finger. 4419a216f4 Magic Fingers Vibrating Bed, invented by John Houghtaling 4419a216f4

Guillotine (magic trick) novelty item than a magic trick, finger guillotines are a minor variation on the basic theme. The most common modern variation is the finger guillotine or finger chopper, a pocket-sized version that appears to chop off the magician's finger. Variations on the theme have been performed for hundreds of years, with documented examples appearing in print in the 16th century. The setup is usually a small version of the full-sized devices The Guillotine is a magic trick where it appears that a blade of a guillotine passes through a person's neck without harming them 4419a216f4

mythical, folkloric or fictional piece of jewelry, usually a finger ring, that is purported to have supernatural properties or powers. It appears frequently in fantasy and fairy tales. Some magic rings can endow the wearer with a variety of abilities including invisibility and immortality. Sometimes, magic rings can be cursed, as in the mythical ring that was recovered by Sigurð from the hoard of the worm Fáfnir in Norse mythology or the fictional ring that features in *The Lord of the Rings*. Others can grant wishes or spells such as neverending love and happiness. More often, however, they are featured as forces for good, or as a neutral tool whose ethical status in the narrative derives from the
