

68 Mustang Manual

Ford Mustang variants High-performance enthusiasts seek more powerful, sharper handling, sports cars such as the Shelby Mustang, the Ford Mustang Mach 1, and variants made by Roush Performance and Saleen, while collectors and purists seek limited production and alternate or nostalgic styling, such as is commonly found on many commemorative editions. Still, others were made purely for experimental concepts such as the McLaren M81 and the Ford Mustang. Ford and several third-party companies have offered many modified versions of the highly popular Mustang since its creation in 1964 in order to cater to specific portions of the marketplace outside of the mainstream. Ford Mustang variants are the various versions of the Ford Mustang car, modified either by its manufacturer Ford Motor Company or by third-party companies Ford Mustang variants are the various versions of the Ford Mustang car, modified either by its manufacturer Ford Motor Company or by third-party companies 16bdb67ec1

Originally predicted to sell 100,000 vehicles yearly, the 1965 Mustang became the most successful vehicle launch since the 1927 Model A. Introduced on April 17, 1964 (16 days after the Plymouth Barracuda), over 400,000 units were sold in its first year; the one-millionth Mustang was sold within two years... 16bdb67ec1

Ford Mustang (first generation) The first-generation Ford Mustang was manufactured by Ford from March 1964 until 1973. The introduction of the Mustang created a new class of automobiles known as pony cars. The Mustang's styling, with its long hood and short deck, proved wildly popular and inspired a host of competition. The Mustang II was 490 lb (222 kg) lighter and almost 19 in (483 mm) shorter than the 1973 Mustang, and derived from the subcompact Pinto platform. While sharing a limited number of driveline components with the Pinto, the Mustang II employed... 16bdb67ec1

Mustang Aeronautics Midget Mustang It was first known as the Long Midget. Rights to both the Midget Mustang and the Mustang II were sold to Mustang Aeronautics in 1992. Rights to both the Midget Mustang and the Mustang II were sold to Mustang Aeronautics The Mustang Aeronautics Midget Mustang MM-1 is a single-seat aerobatic sports airplane developed and marketed in the United States for homebuilding. predecessor to the Mustang II which is also known as the Bushby Mustang. It was the predecessor to the Mustang II which is also known as the Bushby Mustang 16bdb67ec1

North American P-51 Mustang Rather than build an old design from another company, NAA proposed the design and production of a more modern fighter. The prototype NA-73X airframe was completed on 9 September 1940, 102 days after contract signing, achieving its first flight on 26 October. The Mustang was designed in 1940 by a team headed by James H. The commission approached NAA to build Curtiss P-40 fighters under license for the Royal Air Force (RAF). The North American Aviation P-51 Mustang is an American long-range, single-seat fighter and fighter-bomber used during World War II and the Korean War The North American Aviation P-51 Mustang is an American long-range, single-seat fighter and fighter-bomber used during World War II and the Korean War, among other conflicts. Kindelberger of North American Aviation (NAA) in response to a requirement of the British Purchasing Commission 16bdb67ec1

Prior to the redesigned Mustang's launch, a two-seater show car was designed... 16bdb67ec1

California Special Mustang 5 months from mid-February 1968 to early August 1968. Production ran for only 5. The hope was for a targeted production run of 5,000; however, only 4,118 were made, including 251 units that were remarketed in Denver, Colorado, as "High Country Special '68". Today, classic car collectors consider these cars to be very desirable. Dealer Advertising Fund) began to market a factory-built, limited-edition Mustang, called the GT/CS, or "California Special". The hope was for a targeted In mid-February 1968, the California Ford Dealers (Ford Dealer Advertising Fund) began to market a factory-built, limited-edition Mustang, called the GT/CS, or "California Special" 16bdb67ec1

The Mustang was designed to use the Allison V-1710 engine without an export-sensitive... 16bdb67ec1 The first-generation Mustangs grew in overall dimensions and engine power with each revision. The 1971 model featured a drastic redesign. After an initial surge, sales steadily declined, and Ford began working on a new generation Mustang. With the onset of the 1973 oil crisis, Ford... 16bdb67ec1

Ford Mustang (third generation) During its third generation, the Mustang evolved through several sub-models, trim levels, and drivetrain combinations during its production and seemed destined for replacement with a front-wheel drive Mazda platform. Company executives were swayed by consumer opinion and the rear-wheel drive Mustang stayed in production, while the front-wheel drive version was renamed the Ford Probe. Mustang is a pony car manufactured and marketed by Ford from 1979–1993, using the company's Fox platform and colloquially called the Fox body Mustang The third-generation Mustang is a pony car manufactured and marketed by Ford from 1979–1993, using the company's Fox platform and colloquially called the Fox body Mustang. Production ended with the introduction of the fourth-generation Mustang (SN-95) for the 1994 model year 16bdb67ec1

It was introduced on April 17, 1964, as a hardtop and convertible, with the fastback version following in August 1964. Upon introduction, the Mustang, sharing its platform with the Falcon, was slotted into the compact car segment. 16bdb67ec1

Ford Mustang (second generation) The second-generation Ford Mustang, marketed as the Ford Mustang II, is a two- or three-door, four-passenger, front-engine/rear-drive pony car manufactured The second-generation Ford Mustang, marketed as the Ford Mustang II, is a two- or three-door, four-passenger, front-engine/rear-drive pony car manufactured and marketed by Ford from 1973 until 1978. Developed under Lee Iacocca, it was an "entirely new kind of pony car. ". " Ford "decided to call it Mustang II, since it was a new type of pony car designed for an era of high gas prices and fuel shortages. Introduced in September 1973 for the 1974 model year, the Mustang II arrived roughly coincident with the oil embargo of 1973 and subsequent fuel shortages 16bdb67ec1

Ford Mustang The Ford Mustang is a series of American automobiles manufactured by Ford. In continuous production since 1964, the Mustang is currently the longest-produced Ford car nameplate. The namesake of the "pony car" automobile segment, the Mustang was developed as a highly styled line of sporty coupes and convertibles derived from existing model lines, initially distinguished by "long hood, short deck" proportions. Currently in its seventh generation, it is the fifth-best selling Ford car nameplate. In continuous production since 1964, the Mustang is currently the

Ford Mustang (fourth generation) Marking the first major redesign of the Ford Mustang in The fourth-generation Ford Mustang is a pony car produced by the Ford Motor Company for the 1994 through 2004 model years. The design (which was code-named "SN95" by Ford), was based on an updated version of the Fox platform and was the final vehicle underpinned with this platform. A convertible model returned, but the previous notchback and hatchback bodystyles were discontinued in favor of a conventional 2-door coupe design. It featured styling by Bud Magaldi that incorporated some stylistic elements from the classic Mustangs. Marking the first major redesign of the Ford Mustang in fifteen years, the fourth generation of the pony car was introduced in November 1993 with the launch taking place on December 9, 1993. Mustang is a pony car produced by the Ford Motor Company for the 1994 through 2004 model years 16bdb67ec1
