Single transferable vote doi:10. 01795. arXiv:2007. 1007/978-3-031-09016-5 The single transferable vote (STV) or proportional-ranked choice voting (P-RCV) is a multi-winner electoral system in which each voter casts a single vote in the form of a ranked ballot. Voters have the option to rank candidates, and their vote may be transferred according to alternative preferences if their preferred candidate is eliminated or elected with surplus votes, so that their vote is used to elect someone they prefer over others in the running. STV aims to approach proportional representation based on votes cast in the district where it is used, so that each vote is worth about the same as another. Skowron, Piotr (2023). Entropy and the Tao of Counting: A Brief Introduction to Statistical Mechanics and the Second Law of Thermodynamics (SpringerBriefs in Physics). Springer Nature Entropy is a scientific concept, most commonly associated with states of disorder, randomness, or uncertainty. It has found far-ranging applications in chemistry and physics, in biological systems and their relation to life, in cosmology, economics, and information systems including the transmission of information in telecommunication. The term and the concept are used in diverse fields, from classical thermodynamics, where it was first recognized, to the microscopic description of nature in statistical physics, and to the principles of information theory a62ec6188f

Communism In Gleditsch, N.). and Genocide" (PDF). A communist society entails the absence of private property and social classes, and ultimately money and the state.
J. SpringerBriefs on Pioneers in Science and Practice Communism (from Latin communis 'common, universal') is a political and economic ideology whose goal is the creation of
a communist society, a socioeconomic order centered on common ownership of the means of production, distribution, and exchange that allocates products in society based on
need. (ed. Communism is a part of the broader socialist movement. P. Rummel: An Assessment of His Many Contributions. R a62ec6188f
