Island Trees School District v. Pico 26 v. S. 853 (1982), was a landmark case in which the United States Supreme Court split on the First Amendment issue of local school boards removing library books from junior high schools and high schools. Four justices ruled that it was unconstitutional, four concluded the contrary (with perhaps a few minor exceptions), and one concluded that the court need not decide the question on the merits. Writing about the plurality opinion, Burger stated, "Were this to become the law Board of Education, Island Trees Union Free School District No. Pico was the first Supreme Court case to consider the right to receive information in a library setting under the First Amendment, but the court's fractured plurality decision left the scope of this right unclear. Subtraction is one of the four arithmetic operations along with addition, multiplication and division. While primarily associated with natural numbers in arithmetic, subtraction can also represent removing or decreasing physical and abstract quantities using different kinds of objects including negative numbers, fractions, irrational numbers, vectors, decimals, functions, and matrices. Subtraction is an operation that represents removal of objects Subtraction (which is signified by the minus sign, $-$) is one of the four arithmetic operations along with addition, multiplication and division. For example, in the adjacent picture, there are $5 - 2$ peaches—meaning 5 peaches with 2 taken away, resulting in a total of 3 peaches. Therefore, the difference of 5 and 2 is 3; that is, $5 - 2 = 3$. Subtraction is an operation that represents removal of objects from a collection 4e6dbf928c
