Pine tar consists primarily of aromatic hydrocarbons, tar acids, and tar bases. Components of tar vary according to the pyrolytic process (e.g. method, duration, temperature) and origin of the wood (e.g. age of pine trees, type of soil, and moisture conditions during tree growth). The choice of wood, design of kiln, burning, and collection of the tar can vary. Only pine stumps and roots are used in the traditional production of pine tar. 792927bf26

Mechanical ventilation Retrieved 29 April 2022. Mechanical ventilation helps move air into and out of the lungs, with the main goal of helping the delivery of oxygen and removal of carbon dioxide. Merck Manuals Professional Edition. Various healthcare providers are involved with the use of mechanical ventilation and people who require ventilators are typically monitored in an intensive care unit. "Overview of Mechanical Ventilation Critical Care Medicine".

Parker JC, Hernandez LA, Peevy KJ -
Mechanical ventilation or assisted ventilation is the medical term for using a ventilator machine to fully or partially provide artificial ventilation. Mechanical ventilation is used for many reasons, including to protect the airway due to mechanical or neurologic cause, to ensure adequate oxygenation, or to remove excess carbon dioxide from the lungs

Cat food Retrieved 7 October 2006.). (2005). French writers in the 1800s criticized this notion, arguing that well-fed cats were more effective hunters. Merck Veterinary Manual (9th ed. By the late 19th century, commercial cat food emerged, with companies like Spratt's producing ready-made products to replace boiled horse meat. ISBN 9780911910506. The idea of specialized cat food came later than dog food, as cats were believed to be self-sufficient hunters. Cats, as obligate carnivores, require animal protein for essential nutrients like taurine and arginine, which they cannot synthesize from plant-based sources. Merck & Co. Extrusion Cat food is food specifically formulated and designed for consumption by cats. "Nutritional Requirements and Related Diseases". During the 19th and

early 20th centuries, cats in London were often fed horse meat sold by traders known as Cats' Meat Men or Women, who traveled designated routes serving households

Masturbation Stimulation may involve the use of hands, everyday objects, sex toys, or more rarely, the mouth (autofellatio and autocunnilingus). , A Subsidiary of Merck & Co. Masturbation may also be performed with a sex partner, either masturbating together or watching the other partner masturbate, known as "mutual masturbation". Masturbation is a form of autoeroticism in which a person sexually stimulates their own genitals for sexual arousal or other sexual pleasure, usually to the point of orgasm. Disorders". The Merck Manual of Diagnosis & Therapy (19th ed.). Whitehouse Station, NJ: Merck Sharp & Dohme Corp. , Inc 792927bf26

Strongyloides stercoralis Its common name in the US is threadworm. RICHARD (2018-08-31). Retrieved 2018-09-03. Forbes, WM; Ashton, FT; Boston, R; *Strongyloides stercoralis* is a human pathogenic parasitic roundworm causing the disease strongyloidiasis. Merck Manuals Professional Edition.

“Strongyloidiasis – Infectious Diseases”. In the UK and Australia, however, the term threadworm can also refer to nematodes of the genus *Enterobius*, otherwise known as pinworms

The *Strongyloides stercoralis* nematode can parasitize humans. The adult parasitic stage lives in tunnels in the mucosa of the small intestine. The genus *Strongyloides* contains 53 species, and *S. stercoralis* is the type species. *S. stercoralis* has been reported in other mammals, including cats and dogs. However, it seems that the species in dogs is typically not *S. stercoralis*, but the related species *S. canis*. Non-human primates are more commonly infected with *S. fuelleborni* and *S. cebus*, although *S. stercoralis*... Pine tar has a long history as a wood preservative, as a... Longer chains of monosaccharides (>2) are not regarded as sugars and are called oligosaccharides or polysaccharides. Starch is a glucose polymer found in plants, the most abundant source of energy in human food. Some other chemical substances, such as ethylene glycol, glycerol and sugar... Ionizing radiation is generally harmful and potentially lethal to living things but can have health benefits in radiation

therapy for the treatment of cancer and thyrotoxicosis. Its most common impact is the induction of cancer with a latent period of years or decades after exposure. High doses can cause visually dramatic radiation burns, and/or rapid fatality through acute radiation syndrome. Controlled doses are used for medical imaging and radiotherapy.

Sugar Compound sugars, also called disaccharides or double sugars, are molecules made of two bonded monosaccharides; common examples are sucrose (glucose + fructose), lactose (glucose + galactose), and maltose (two molecules of glucose). In the body, compound sugars are hydrolysed into simple sugars. Edwards Sugar is the generic name for sweet-tasting, soluble carbohydrates, many of which are used in food. White sugar is almost pure sucrose.). Simple sugars, also called monosaccharides, include glucose, fructose, and galactose. , 8205. ISBN 091191028X. PMID 8719737. Merck. 1989. S2CID 25995873. The Merck Index: An Encyclopedia of Chemicals, Drugs, and Biologicals (11th ed 792927bf26

Ammonium chloride In its naturally occurring mineralogic form, it is known as salammoniac.

Solutions of ammonium chloride are mildly acidic. The mineral is commonly formed on burning coal dumps from condensation of coal-derived gases. It is a white crystalline salt that is highly soluble in water. Merck & Co. 71. ISBN 9780911910278 Ammonium chloride is an inorganic chemical compound with the chemical formula NH_4Cl , also written as $[\text{NH}_4]\text{Cl}$. It is an ammonium salt of hydrogen chloride. It is a product of the reaction of hydrochloric acid and ammonia. The Merck Index: An Encyclopedia of Chemicals, Drugs, and Biologicals (PDF) (10th ed. "Ammonium Chloride";). It is also found around some types of volcanic vents. It consists of ammonium cations $[\text{NH}_4]^+$ and chloride anions Cl^- . It is mainly used as fertilizer and a flavouring agent in some types of liquorice. (1983) 792927bf26

Constipation has many causes. Common causes include slow movement of stool within the colon, irritable bowel syndrome, and pelvic floor disorders. Underlying associated diseases include hypothyroidism, diabetes, Parkinson's disease, celiac disease, non-celiac... 792927bf26 Mechanical ventilation is termed invasive if it involves an instrument to create an airway that is placed inside the trachea. Pine tar History Pine tar is a form of wood tar produced by the high temperature carbonization of pine wood in anoxic conditions (dry distillation or destructive distillation). p. Merck Index, 11th Edition, 7417. The wood is rapidly decomposed by applying heat and pressure in a closed container; the primary resulting products are charcoal and pine tar. europa. eu. Look up pine tar in Wiktionary, the free dictionary. 1182 "C&L Inventory"; ISBN 978-1-60342-469-1. echa 792927bf26

Constipation The stool is often hard and dry. at Merck Manual of Diagnosis and Therapy Home Edition MedlinePlus Overview constipation Constipation and Constipation is a bowel dysfunction that makes bowel movements infrequent or hard to pass. ISSN 1469-493X. PMC 8094226. Complications from constipation may include hemorrhoids, anal fissure or fecal impaction. The normal frequency of bowel movements in adults is between three per day and three per week. Babies often have three to four bowel movements per day while young children typically have two to three per day. PMID 32761813. 09-129b. Other symptoms may include abdominal pain, bloating, and feeling as if one has not completely passed

the bowel movement 792927bf26

Masturbation is frequent in both sexes. Various medical and psychological benefits have been attributed to a healthy attitude toward sexual activity in general and to masturbation in particular. No causal relationship between masturbation and any form of mental or physical disorder has been found. Masturbation is considered by clinicians... 792927bf26

Carbon tetrachloride Exposure to high concentrations of carbon tetrachloride can affect the central nervous system and degenerate the liver and kidneys. Beginning in 1922, capsules of pure carbon tetrachloride were marketed by Merck under the name Necatorina (variants include Neo-necatorina and Necatorine) Carbon tetrachloride, also known by many other names (such as carbon tet for short and tetrachloromethane, also recognised by the IUPAC), is a chemical compound with the chemical formula CCl_4 . It is a non-flammable, dense, colourless liquid with a "sweet" chloroform-like odour that can be detected at low levels. Prolonged exposure can be fatal. It was formerly widely used in fire extinguishers, as a precursor to refrigerants, an anthelmintic and a cleaning

agent, but has since been phased out because of environmental and safety concerns
