For example, the word dermatology comes from the root dermato plus logy. Sometimes, an excrescence, the addition of a consonant, must be added to avoid poor construction of words. da3b0d1887 Rockford was settled as Midway in the mid-1830s due to its location roughly equidistant between Lake Michigan and the Mississippi River. The city became notable in the 19th and early 20th centuries for its production of heavy machinery and furniture, but like other Rust Belt cities, Rockford experienced significant industrial decline in the late 20th century. Since the late 1990s, Rockford has pursued economic diversification in the automotive and healthcare industries, as well as downtown revitalization and tourism initiatives. da3b0d1887 He was a member of the Department of English and Comparative Literature at Columbia University, where he taught in the Department of General Studies. A reading specialist, he prepared generations of adult students for the rigors of university work after years of absence from any academic setting. His books about language are very well regarded for their clarity and humor and were introduced by such word luminaries as William F. Buckley, Richard Lederer, and Noah Adams, who also featured Mr. Ehrlich's language commentary on his public radio broadcasts. William Safire occasionally cited Mr. Ehrlich in his writing on language. da3b0d1887

There are additional uses for the suffix, such as to describe a subject rather than the study of it (e.g., duology). The suffix is often humorously appended to other English words to create nonce words. For example, stupidology would refer to the study of stupidity; beerology would refer to the study of beer. da3b0d1887 Latin orthography is the writing system used to spell Latin from its archaic stages down to the present. Latin was nearly always spelt in the Latin alphabet, but further details varied from period to period. The alphabet developed from Old Italic script, which had developed from a variant of the Greek alphabet, which in turn had developed from a variant of the Phoenician alphabet. The Latin alphabet most resembles the Greek alphabet that can be seen on black-figure pottery dating to c. 540 BC, especially the Euboean regional variant. da3b0d1887
