Content delivery network Since then, CDNs have grown to serve a large portion of Internet content, including web objects (text, graphics and scripts), downloadable objects (media files, software, documents), applications (e-commerce, portals), live streaming media, on-demand streaming media, and social media services. The goal is to provide high availability and performance ("speed") by distributing the service spatially relative to end users. CDNs came into existence in the late 1990s as a means for alleviating the performance bottlenecks of the Internet as the Internet was starting to become a mission-critical medium for people and enterprises. term spanning different types of content delivery services: video streaming, software downloads, web and mobile content acceleration, licensed/managed CDN A content delivery network (CDN) or content distribution network is a geographically distributed network of proxy servers and their data centers b036133078

Technical writer doi:10. 1201/9780429430787 A technical writer is a professional communicator whose task is to convey complex information in simple terms to an audience of the general public or a very select group of readers. Philip (2019-01-25). In most organizations, a technical writer serves as a trained expert in technical writing and not as an expert in their field of employment. Technical writers generally acquire necessary industry terminology and field or product knowledge on the job, through working with Subject-Matter Experts (SMEs) and their own internal document research. Boca Raton: CRC Press. Technical writers research and create information through a variety of delivery media (electronic, printed, audio-visual, and even touch). This, of course, does not mean technical writers aren't expected to have, at the very least, a basic understanding of their subject matter. Technical communication When technical communication occurs in workplace settings, it's considered a major branch of professional communication. experience (UX) design has become more prominent in technical and professional communication (TPC) as companies look to develop content for a wide range Technical communication (or tech comm) is communication of technical subject matter such as engineering, science, or technology content. In research or R&D contexts (academic or industrial), it can overlap with scientific writing. Technical communication also encompasses oral delivery modes such as presentations involving technical material. The largest part of it tends to be technical writing, though importantly it often requires aspects of visual communication (which in turn sometimes entails technical drawing, requiring more specialized training) b036133078

McGrane taught Design Management at School of Visual Arts in New York. Her design philosophy is "every company is a technology

company" and "every business is in the user experience business." McGrane was an early proponent of designing web content for mobile devices and is a frequent speaker at technology conferences. She was also the co-executive producer, with Jared Spool, of the UX Advantage Conference and cohost of the UX Advantage podcast. She co-hosted the Responsive Web Design podcast from 2014-2018 with Ethan Marcotte. b036133078

User experience design Unlike user interface design, which focuses solely on the design of a computer interface, UX design encompasses all aspects of a user's perceived experience with a product or website, such as its usability, usefulness. Research, data analysis, and test results drive design decisions in UX design rather than aesthetic preferences and opinions, for which is known as UX Design Research. specialize in crafting content for mobile platforms while executing a user-centered approach. UX writers focus on developing content to guide users through User experience design (UX design, UXD, UED, or XD), upon which is the centralized requirements for "User Experience Design Research" (also known as UX Design Research), defines the experience a user would go through when interacting with a company, its services, and its products.
