Oliverio is author or co-author of about 400 publications. He is author of about 30 chapters or general reviews in edited books or annual reviews. Has edited 6 books on animal behavior and behavioral genetics and is the author of many books on memory, brain and behavior. 677f023c68 The term "irrationalism" does not refer to an independent philosophical movement, but is a moment and component of various philosophical movements and systems. Irrationalism in the true sense refers to worldviews that are particularly characterized by the moment of irrationality and that also put rational thinking aside in favor of alternative, higher cognitive functions, often in favor of a certain form... 677f023c68 The philosophy of rationalism, understood as having first emerged in the writings of Francis Bacon and René Descartes, has received a variety of criticisms

since its inception. These may entail a view that certain things are beyond rational understanding, that total rationality is insufficient or even harmful to human life, or that people are not instinctively rational and progressive. 677f023c68 == Overview == 677f023c68
