 The purpose of this election is to appoint the three non-arbitrator members of the Audit Subcommittee ("AUSC"). The sub-committee was established by the Arbitration Committee to investigate complaints concerning the use of CheckUser and Oversight privileges on the English Wikipedia, and to provide better monitoring and oversight of the CheckUser and Oversight positions, and use of the applicable tools.

Internet Computers that belong to a subnet
are addressed with an identical most-
significant The Internet (or internet) is the
global system of interconnected computer
networks that uses the Internet protocol
suite (TCP/IP) to communicate between
networks and devices. The practice of
dividing a network into two or more
networks is called subnetting. It is a network
of networks that consists of private, public,
academic, business, and government

networks of local to global scope, linked by a broad array of electronic, wireless, and optical networking technologies. The Internet carries a vast range of information resources and services, such as the interlinked hypertext documents and applications of the World Wide Web (WWW), electronic mail, internet telephony, streaming media and file sharing
