Appraisal reports form the basis for mortgage loans, settling estates and divorces, taxation, etc. Sometimes an appraisal report is also used to establish a sale price for a property. Factors like size of the property, condition, age,

and location play a key role in the valuation. In the years leading up to the 2008 financial crisis, the real estate sector in the People's Republic of China (PRC) was growing so rapidly that the government implemented a series of policies—including raising the required down payment for some property purchases, and five 2007 interest rate increases—due to concerns of overheating. But after the crisis hit, these policies were quickly eliminated, and in some cases tightened. Beijing also launched a massive stimulus package to boost growth, and much of the stimulus eventually flowed into the property market and drove prices up, resulting in investors increasingly looking abroad. As of 2015, the market was experiencing...
