Visual artists had a similar relationship with alchemy. While some of them used alchemy as a source of satire, others worked with the alchemists themselves or integrated alchemical thought or symbols in their work. Music was also present in the works of alchemists and continues to influence popular performers. In the last hundred years, alchemists have... e6399ef191

The psychological and religious implications of alchemy were Jung's major preoccupation during the last thirty years of his life. The essays in this volume complete the publication of his alchemical researches, to which three other volumes have been entirely devoted: *Mysterium Coniunctionis*, *Psychology and Alchemy*, and *Aion*. This volume can serve as an introduction to Jung's work on alchemy. The first essay, on Chinese... e6399ef191 The concept derives from the philosophy of Plato: the word 'astral' means 'of the stars'; thus the astral plane consists of the Seven Heavens of the classical planets.
