

Global Certifications For Makers And Hardware Startups

Osborne Computer Corporation July 1981, and its low price set market expectations for bundled hardware and software packages for several years to come. It was located in Hayward, California, part of San Francisco Bay Area in California. The company sold 11,000 Osborne The Osborne Computer Corporation (OCC) was an American computer company and pioneering maker of portable computers 4fbb7cd73d

Markforged Standardization (ISO) and the International Electrotechnical Commission (IEC). The company is headquartered in Waltham, Massachusetts, in the Greater Boston Area. Markforged was founded by Gregory Mark and the chief technology officer (CTO) David Benhaim in 2013. The certification was applied to Markforged's hardware and Eiger cloud and fleet management Markforged Holding Corporation is an American public additive manufacturing company that designs, develops, and manufactures The Digital Forge — an industrial platform of 3D printers, software and materials that enables manufacturers to print parts at the point-of-need. It produced the first 3D printers capable of printing continuous carbon fiber reinforcement and utilizes a cloud architecture 4fbb7cd73d

Polyakov has a business philosophy with deep scientific roots. He follows the idea of Ukrainian scientist Volodymyr Vernadsky who claimed that knowledge is the driving force behind every further positive development on Earth. Polyakov believes that space-based technologies can and should be used to solve problems on Earth. 4fbb7cd73d

OpenROV Lang and Stackpole co-founded OpenROV as an open-source hardware project, a startup, and a OpenROV was a marine robotics company focused on democratizing underwater exploration through the development of low cost Remotely Operated Vehicle (ROV) technology and an online community of citizen scientists and makers. OpenROV was founded by David Lang and Eric Stackpole in 2011, and was based for most of its history in Berkeley, CA. for a prototype presented at the World Maker Faire in 2011. OpenROV created a series of ROV kits as well as a ready-to-use ROV called Trident, both of which were launched on the crowdfunding platform, Kickstarter. In 2019, OpenROV merged with Spoodrift Technologies to create Sofar Ocean Technologies 4fbb7cd73d

It was a subsidiary of Hitachi and part of the Hitachi Information Systems & Telecommunications Division until 2017. In 2017, it merged with Pentaho and Hitachi Insight Group to form Hitachi Vantara. 4fbb7cd73d

Juniper Networks "Startup snags \$40M in a bid to redefine Juniper Networks, Inc. , was an American multinational corporation headquartered in Sunnyvale, California. Wirbel, Loring (September 1, 1997). The company developed and marketed networking products, including routers, switches, network management software, network security products, and software-defined networking technology. Electronic News. "Startups introduce faster routers". Jeremy (November 24, 1997) 4fbb7cd73d

Cisco (using the trademark Cisco) is an American multinational digital communications technology conglomerate corporation headquartered in San Jose, California. Cisco develops, manufactures, and sells networking hardware, software, telecommunications equipment and other high-technology services and products. Cisco specializes in specific tech markets, such as the Internet of things (IoT), domain security, videoconferencing, and energy management with products including Webex, OpenDNS, Jabber, Duo Security, Silicon One, and Jasper. of several startups determined to find new ways to process IP and MPLS packets entirely in hardware and blur boundaries between routing and switching. Cisco Systems, Inc 4fbb7cd73d

BIOS On a computer using BIOS firmware, the firmware comes pre-installed on the computer's motherboard. On a computer In computing, BIOS (, BY-oss, -ohss; Basic Input/Output System, also known as the System BIOS, ROM BIOS, BIOS ROM or PC BIOS) is a type of firmware used to provide runtime services for operating systems and programs and to perform hardware initialization during the booting process (power-on startup). runtime services for operating systems and programs and to perform hardware initialization during the booting process (power-on startup) 4fbb7cd73d

Max Polyakov Retrieved 23 March 2022. Polyakov is a general partner in the venture fund Noosphere Ventures Partners LP which invests in a number of technology companies over the global scale. Retrieved 24 Maksym "Max" Polyakov (born 30 June 1977) is an international technology entrepreneur, investor, economist, and philanthropist from Ukraine. Roulette, Joey (21 September 2021). The Verge. "Launch startups Astra and Firefly ink secret rocket engine IP deal" 4fbb7cd73d

The company was founded in 1996 by Pradeep Sindhu, with Scott Kriens as the first CEO, who remained until September 2008. Kriens has been credited with much of Juniper's early market success. It received several rounds of funding from venture capitalists and telecommunications companies before going public in 1999. Juniper grew to \$673 million in annual revenues by 2000. By 2001 it had a 37% share of the core routers market, challenging Cisco's once-dominant market-share. It grew to US\$4 billion in revenues... 4fbb7cd73d The name originates from the Basic Input/Output System used in the CP/M operating system in 1975. The BIOS firmware was originally proprietary to the IBM PC; it was reverse engineered by some companies (such as Phoenix Technologies) looking to create compatible systems. The interface of that original system serves as a de facto standard. 4fbb7cd73d

Braigo Braigo v1. 0 was designed by 13-year-old Shubham Banerjee in January 2014, as an entry in 7th grade school science fair project. 0 uses a Lego Mindstorms EV3 kit, which includes a microprocessor with assorted components such as electric motors, sensors and actuators. The model was based on the PLOTT3R, a bonus model released with the EV3 kit and originally designed by Ralph Hempel. The cost was said to be about US\$350 or 250 Euros for the Lego Mindstorms EV3 kit and some extra commonly used hardware whereas a conventional Braille printer retails starting from about \$1,900. 250 Euros for the Lego

Mindstorms EV3 kit and some extra commonly used hardware whereas a conventional Braille printer retails starting from about \$1,900 Braigo (Brai-lle +Le-go) is a Braille printer design. Braigo version 1 4fbb7cd73d

In 2010, Hitachi Data Systems sold through direct and indirect channels in more than 170 countries and regions, with customers that included over half of the Fortune 100 companies at the time. 4fbb7cd73d In August 2014, a new company called Braigo Labs Inc. was formed with an office in Palo Alto, California. Since Shubham Banerjee was a minor, his mother... 4fbb7cd73d Fortinet has offices all over the world in US, Canada, Chile, Mexico, Argentina, Brazil, Algeria, Austria, Belgium, Denmark, Czech Republic, Finland, France, Germany, Greece, Hungary, Ireland, Israel, Italy, Norway, Poland, Qatar, Romania, Saudi Arabia, Spain, Sweden, Switzerland, Netherlands, UK, Turkey, UAE, Australia, China, Hong Kong, India, Indonesia, Japan, Korea, Malaysia, Philippines, Singapore, Taiwan, Thailand, and Vietnam. 4fbb7cd73d Adam Osborne, the founder of the company, developed, with design work from Lee Felsenstein, the world's first mass-produced portable computer, the Osborne 1, in 1981. 4fbb7cd73d

Hitachi Data Systems Its operations are now a part of Hitachi Vantara. as mini and microcomputers, and the Unix operating system gained popularity. Mainframe makers such as Sperry, Honeywell, Burroughs, NCR and Control Data Hitachi Data Systems (HDS) was a provider of modular mid-range and high-end computer data storage systems, software, and services 4fbb7cd73d

Fortinet is an American cybersecurity company headquartered in Sunnyvale, California, who develop and market security solutions like firewalls, endpoint security and intrusion detection systems. In November 2009, Fortinet had an initial public offering, opening on the NASDAQ Global Market under the Fortinet, Inc. network security hardware, up from seventh in 2007 4fbb7cd73d

Cisco Systems was founded in December 1984 by Leonard Bosack and Sandy Lerner, two Stanford University computer scientists who had been instrumental in connecting computers at Stanford. They pioneered the concept of a local area network (LAN) being used... 4fbb7cd73d Founded in 2000 by brothers Ken Xie and Michael Xie, the company's first and main product was FortiGate, a physical firewall. The company later added wireless access... 4fbb7cd73d The BIOS in older PCs initializes and tests the system hardware... 4fbb7cd73d
