Kenyan-British palaeoanthropologist and archaeologist whose work was important in demonstrating that humans evolved in Africa, particularly through discoveries made at Olduvai Gorge with his wife, fellow palaeoanthropologist Mary Leakey. Several members of the Leakey family became prominent scholars themselves. Mary Leakey. Having established a programme of palaeoanthropological inquiry in eastern Africa, he also motivated many future generations to continue this scholarly work 4fae8eb589

The Origin of the Universe by John D. Barrow 4fae8eb589 She also participated in excavations at Olduvai Gorge. She was previously married to Roger Coryndon, son of colonial administrator Robert Coryndon, and in 1969 she married British paleontologist R. J. G. Savage, whom she had met in Kenya in 1955. 4fae8eb589

Colin Leakey Many of the Leakey family have Colin Louis Avern Leakey (13

The Origin Of Humankind Richard E Leakey

December 1933, Cambridge, England – 29 January 2018, Lincoln, England) was a leading plant scientist in the United Kingdom, a Fellow of King's College, Cambridge and of the Institute of Biology, and a world authority on beans. to Mary Leakey, Leakey was half-brother to Richard, a conservationist, Philip, a politician, and Jonathan, a businessman 4fae8eb589

Leakey co-founded the "Turkana Basin Institute" in an academic partnership with Stony Brook University, where he was an anthropology professor. He served as the chair of the Turkana Basin Institute until his death. 4fae8eb589 Another of Leakey's legacies stems from his role in fostering field research of primates in their natural habitats, which he saw as key to understanding human evolution. He personally focused on three female researchers, Jane Goodall, Dian Fossey, and Birutė Galdikas... 4fae8eb589 The Human Brain: A Guided Tour by Susan Adele Greenfield 4fae8eb589 written by scientists known for their popular writings. It was created by the literary agent John Brockman in the 1990s, and originally published by Basic Books. 4fae8eb589

Francis Harold Brown Brown introduced single-crystal argon-argon and potassium-

argon dating into the Turkana Basin, resolving disputes over the age of Kenyanthropus platyops and other fossils. 2017. Simon and Schuster. Ancestral Passions: The Leakey Family and the Quest for Humankind's Beginnings. ISBN 9781439143872 Francis Harold Brown (October 24, 1943 – September 30, 2017) was an American geologist and geochemist who mapped the sedimentary sequence and geology of most of the Turkana Basin in Kenya, east Africa. Morell, Virginia (2011). p. 526 4fae8eb589

In the 1950s she studied paleontology with Donald MacInnes at the Museum of Nairobi. 4fae8eb589 Books include: 4fae8eb589 Estimates of the individual's age at death range from 7 to 11 years old. 4fae8eb589

Shirley Coryndon Passions: The Leakey Family and the Quest for Humankind's Beginnings. Leakey; Bethwell Shirley Cameron Coryndon (1926–1976) was a British paleontologist and authority on fossil hippopotami. ISBN 978-1-4391-4387-2. pp. 229–. Simon and Schuster. Richard E 4fae8eb589

Coryndon was the paleontological assistant to Louis Leakey at the Centre for

Prehistory and Paleontology. Just Six Numbers: The Deep Forces That Shape the Universe by Martin J. Rees How Brains Think by William H. Calvin Laboratory Earth: The Planetary Gamble We Can't Afford to Lose by Stephen H. Schneider Robust australopithecines are characterised by heavily built skulls capable of producing high stresses and bite forces, and some of the largest molars with the thickest enamel of... Kinds of Minds by Daniel C. Dennett One Renegade Cell: The Origins of Cancer...

Paranthropus boisei The holotype specimen, OH 5, was discovered by palaeoanthropologist Mary Leakey in 1959 at Olduvai Gorge, Tanzania and described by her husband Louis a month later. Touchstone, 2011. "The affinities of the new Olduvai *Paranthropus boisei* is a species of australopithecine from the Early Pleistocene of East Africa about 2.193 million years ago. Robinson, J. It was originally placed into its own genus as "*Zinjanthropus boisei*", but is now relegated to *Paranthropus* along with other robust australopithecines. 15 million years ago. However, it is also argued that *Paranthropus* is an invalid grouping and synonymous with *Australopithecus*, so the species is also often classified as

Australopithecus boisei. p. Passions: The Leakey Family and the Quest for Humankind's Beginnings. T. (1960)

Paleoanthropology (1938–2022) Jeffrey Laitman (1951–) Louis Leakey (1903–1972) Meave Leakey (1942–) Mary Leakey (1913–1996) Richard Leakey (1944–2022) André Leroi-Gourhan (1911–1986) Paleoanthropology or paleo-anthropology is a branch of paleontology and anthropology which seeks to understand the early development of anatomically modern humans, a process known as hominization, through the reconstruction of evolutionary kinship lines within the family Hominidae, working from biological evidence (such as petrified skeletal remains, bone fragments, footprints) and cultural evidence (such as stone tools, artifacts, and settlement localities)

She is commemorated in the names of the fossil hippopotami *Hexaprotodon coryndonae* and *Kenyaipotamus coryndonae*, as well as the fossil bovine *Ugandax coryndonae*. Nature's Numbers by Ian Stewart The Last Three Minutes by Paul Davies

The Origin Of Humankind Richard E Leakey

Richard Leakey He was director of the National Museum of Kenya, founded the NGO WildlifeDirect, and was the chairman of the Kenya Wildlife Service. Richard Erskine Frere Leakey FRS (19 December 1944 – 2 January 2022) was a Kenyan paleoanthropologist, conservationist and politician. Leakey held a number of official positions in Kenya, mostly in institutions of archaeology and wildlife conservation

The Periodic Kingdom by P.W. Atkins The field draws from and combines primatology, paleontology, biological anthropology, and cultural anthropology. As technologies and methods advance, genetics plays an ever-increasing role, in particular to examine and compare DNA structure as a vital tool of research of the evolutionary kinship lines of related species and genera.

The Origin Of Humankind Richard E Leakey

Turkana Boy The Origin of Humankind. Origins Reconsidered. 5 to 1. Leakey, Richard (1994). Leakey, Richard (1992). National Museums of Kenya. Ambassador". This specimen is the most complete early hominin skeleton ever found. ISBN 0-465-03135-8. ISBN 0-385-41264-9 Turkana Boy, also called Nariokotome Boy, is the name given to fossil KNM-WT 15000, a nearly complete skeleton of a Homo erectus youth who lived 1. 6 million years ago 4fae8eb589
