It was the first toy advertised on television and has remained in production since. In its original form, Mr. Potato Head was offered as separate plastic parts with pushpins to be affixed to a real potato or other vegetable. Due to complaints regarding rotting vegetables and new government safety regulations, Hasbro began including a plastic potato body with the toy set in 1964. The original toy was joined by Mrs. Potato Head in 1953 and later supplemented with accessories including a car and boat trailer. Hasbro updated the brand in 2021, dropping the honorific in the name and marketing the toy simply as Potato Head, while retaining the individual characters of Mr. and Mrs. Potato Head. == Series overview ==
