Arduino In addition to using traditional compiler toolchains, the Arduino project provides Arduino () is an Italian open-source hardware and software company, project, and user community that designs and manufactures single-board microcontrollers and microcontroller kits for building digital devices. Its hardware products are licensed under a CC BY-SA license, while the software is licensed under the GNU Lesser General Public License (LGPL) or the GNU General Public License (GPL), permitting the manufacture of Arduino boards and software distribution by anyone. Arduino boards are available commercially from the official website or through authorized distributors. Processing language and used with a modified version of the Processing IDE 073f4d6232

Comparison of single-board microcontrollers "Meet Arduino ZERO Comparison of Single-board microcontrollers excluding Single-board computers. Retrieved 12 August 2014. com. "ATSAMD21G18;". 15 June 2015. Arduino Documentation". ". Atmel. "Arduino Zero now available for purchase 073f4d6232

Where different from the Arduino base feature set, compatibility, features, and licensing details are included. 073f4d6232

List of Arduino boards and compatible systems It lists boards in these categories:. compatible Based on non-Atmel processors Where different from the Arduino base feature set, compatibility, features, and licensing details are included This is a non-exhaustive list of Arduino boards and compatible systems 073f4d6232

Based on non-Atmel processors 073f4d6232 Arduino board designs use a variety of microprocessors and controllers. The boards are equipped with sets of digital and analog input/output (I/O) pins that may be interfaced to various expansion boards ('shields') or breadboards... 073f4d6232 Arduino "shield" compatible 073f4d6232

List of BASIC dialects extensions. , the computer models and operating systems, are given in parentheses along with any other significant information. Each dialect's platform(s), i. AttoBasic ROM-resident interpreter, executes from on-chip RAM (Atmel AVR) Atom BASIC (Acorn This is an alphabetical list of BASIC dialects - interpreted and compiled variants of the BASIC programming language. e. AT&T interpreter and compiler for the AT&T UNIX PC (3B1) 073f4d6232
