words in English is important as a reference when learning a
language as it will show the equivalent words you need to
learn in the other language to achieve fluency. Eventually
these words will all be translated into big lists in many
different languages and using the words in phrase contexts as
a resource. You can use the list to generate your own lists in
whatever language you're learning and to test yourself. A big
list will constantly show you what words you don't know and
what you need to work on and is useful for testing yourself
