Association for Standardisation of Automation and Measuring Systems The standards define protocols, data models, file formats and application programming interfaces (APIs) for the use in the development and testing of automotive electronic control units. The association coordinates the development of technical standards, which are developed by working groups composed of experts from its member companies. communication interfaces between devices in the measurement, calibration, diagnostics and testing area. ASAM pursues the vision that the tools of a development process chain can be freely interconnected and allow a seamless exchange of data. The standards cover processes and tool-chains in these areas Association for Standardization of Automation and Measuring Systems or ASAM is an incorporated association under German law. Its members are primarily international car manufacturers, suppliers and engineering service providers from the automotive industry. A large amount of popular tools in the areas of simulation, measurement f2f0e31c74

On-board diagnostics In the United States, this capability is a requirement to comply with federal emissions standards to detect failures that may increase the vehicle tailpipe emissions to more than 150% of the standard to which it was originally certified. RCA defines an analog STE/ICE (simplified test equipment for internal combustion engines) vehicle diagnostic standard used in the CUCV, M60 tank and other On-board diagnostics (OBD) is a term referring to a vehicle's self-diagnostic and reporting capability f2f0e31c74

European emission standards These standards target air pollution from exhaust gases, brake dust, and tyre rubber pollution, and are defined through a series of European Union directives that progressively introduce stricter limits to reduce environmental impact. Compliance is determined by running the engine at a standardised test cycle. different standards apply. Non-compliant vehicles cannot be sold in the EU, but The European emission standards are vehicle emission standards that regulate pollution from the use of new land surface vehicles sold in the European Union and European Economic Area member states and the United Kingdom, and ships in European territorial waters f2f0e31c74
