The message is sent through a channel to a receiver who has to decode it to understand it. Many models include the idea that a source uses a

coding system to express information in the form of a message. Its precise definition is disputed and there are disagreements about whether unintentional or failed transmissions are included and whether communication not only transmits meaning but also creates it. The technological advances also led to new forms of communication, Communication is commonly defined as the transmission of information. Models of communication are simplified overviews of its main components and their interactions 6d1f676d0b

The appropriate role for journalism varies from country to country, as do perceptions of the profession, and the resulting status. In some nations, the news media are controlled by government and are not independent. In others, news media are independent of the government and operate as private industry. In addition, countries may have differing implementations of laws handling the freedom of speech, freedom of the press as well as slander and libel... 6d1f676d0b
