The letter Z appeared on many telephone dials from the early 1930s to the 1950s at the same position as the label Operator with the digit... 7d23056b00 On February 25, 2021, AT&T announced that it would spin-off DirecTV, U-Verse TV, and DirecTV Stream into a separate entity, selling a 30% stake... 7d23056b00

Zenith Flash-matic It had only one button that was used to The Zenith Flash-Matic was the first wireless remote control for television, invented by Eugene Polley in 1955. It had only one button that was used to power on and off, channel up, channel down, and mute. The Flash-matic's phototechnology was a significant innovation in television and allowed for wireless signal transfer previously exclusive to radio. The Zenith Flash-Matic was the first wireless remote control for television, invented by Eugene Polley in 1955 7d23056b00

The Mobile Telephone Service was one of the earliest mobile telephone standards. It was operator assisted in both directions, meaning that if one were called from a land line the call would be routed to a mobile operator, who would route it to one's phone. Similarly, to make an outbound call one had to go through the mobile operator, who would ask for the mobile number and the number to be called, and would then place the call. 7d23056b00

Boomerang (cocktail) The Official Mixer’s Manual lists the popularized version of the Boomerang Cocktail as calling for: A Boomerang cocktail is a specific cocktail dating back to the early 20th century. In the 21st century, it may also be a reference to cocktails that bartenders illegally shuttle back and forth between bars as a way of sharing experimentation or building comradery. of sharing experimentation or building comradery 7d23056b00

This service originated with the Bell System, and was first used in St. Louis, Missouri, United States on June 17, 1946. The original equipment weighed 80 pounds (36 kg)... 7d23056b00 Introduced in the 1930s, a Zenith number was listed in local directories in each community from which a business desired to receive calls. In that era, direct-dial numbers were commonly published with telephone exchange names followed by digits, such as in the telephone number "PENnsylvania 6-5000". 7d23056b00

Mobile Telephone Service be calculated for rating of a call. This coding system, which was in its zenith of usage during the 1980s and 1990s, was rendered unusable when the North The Mobile Telephone Service (MTS) was a pre-cellular VHF radio system that linked to the Public Switched Telephone Network (PSTN). MTS was the radiotelephone equivalent of land dial phone service 7d23056b00

Zenith number foreign exchange service. The service preceded the system of toll-free telephone numbers with area code 800 in the United States. In the United States and Canada, usage of manual Zenith numbers diminished after the 1967 introduction of interstate direct-dial A Zenith number was a telephone service in the United States that

allowed a calling party to call the service subscriber at no charge by requesting the name Zenith and the number from a switchboard operator. Some areas used the names "Enterprise" or "WX" number 7d23056b00
