Pallet racking Forklift trucks are usually required to place the loaded pallets onto the racks for storage. Since the Second World War, pallet racks have become a ubiquitous element of most modern warehouses, manufacturing facilities, retail centers, and other storage and distribution facilities. Costs associated with the racking increases with increasing storage density. Selective pallet racking is a common pallet racking system in use today. Although there are many varieties of pallet racking, all types allow for the storage of palletized materials in horizontal rows with multiple levels. storage density.
