

Volvo Fmx Service Manual

The "3" in the number refers to the specific series of transmission. The M-3x, 4x, 5x and 6x transmissions are all aluminum cased transmissions that are related to the M-35 (the first of the aluminum Borg-Warner automatics). In this case the rising series number is relative to transmission strength—a larger number will withstand more power than a smaller number. This isn't, however, a general rule with Borg-Warner automatics. The earlier M-8 and M-1x cast iron case transmissions are much stronger than the aluminum... 6912f603e1 The specifications outlined under the Mercon label cover various aspects such as viscosity, friction characteristics, and thermal stability, which are essential for the transmission fluid to perform under a wide range of operating conditions. This careful regulation ensures that all licensed Mercon fluids provide consistent quality... 6912f603e1

Cruise-O-Matic It was designed by the Warner Gear division of Borg-Warner Corporation and introduced in 1951 model year cars, and was called the Merc-O-Matic-named when installed in Mercury-branded cars and Turbo-Drive when installed in Lincoln-branded cars. In contrast to Detroit Gear Division's three-band automatic originally designed for Studebaker, which became superseded by this unit, a variation of Warner Gear's three-speed unit named Ford-O-Matic continued to evolve later into Cruise-O-Matic transmissions in 1958 and finally the FMX-named transmissions in 1968. This line continued in production until 1980 Ford-O-Matic was the first automatic transmission widely used by Ford Motor Company. This line continued in production until 1980, when the AOD was introduced. Like Ford, variations of this same Borg-Warner design were used by other automobile. to evolve later into Cruise-O-Matic transmissions in 1958 and finally the FMX-named transmissions in 1968 6912f603e1

The River Rouge Complex manufactured most of the components of Ford vehicles, starting with the Model T. Much of the production was devoted to compiling "knock-down kits" that were then shipped in wooden crates to Branch Assembly locations across the United States by railroad and assembled locally, using local supplies as necessary. A few of the original Branch Assembly locations still remain while most have been repurposed or have been demolished and the land reused. Knock-down kits were also shipped... 6912f603e1

MERCON This designation serves as a mark of quality that Ford has established for fluids used in automatic transmissions. 3-Speed automatic transmission 1966 C-6 3-Speed automatic transmission 1968 FMX 3-Speed automatic transmission In 1967, Ford introduced a new fluid specification Mercon represents a series of technical standards for automatic transmission fluid, developed and trademarked by Ford Motor Company. These companies are authorized to produce the fluid according to Ford's specifications and market it under their own brand names. The Mercon name, which has evolved into a brand, is licensed by Ford to various manufacturers 6912f603e1

Borg-Warner 35 transmission 1972-73 BW35 Later 1974-80 BW65 Viva HB Only Volvo Amazon Volvo P1800 Volvo 140 Series Volvo 164 Volvo 200 Series 1964-1976 model years 16/60 (ADO 38) The Borg-Warner 35 transmission (BW-35) is an automatic transmission produced by the BorgWarner company. This article also applies to variations—the M-36 and M-37. When this article refers to "M-3x" it refers to all models. When model number specific it will use the exact model number 6912f603e1

List of Ford factories Per regulations, the factory is encoded into each vehicle's VIN as character 11 for North American models, and character 8 for European models.
