Tourism UN Tourism defines tourism more generally, in terms which go "beyond the common perception of tourism as being limited to holiday activity only", as people "travelling to and staying in places outside their usual environment for not more than one consecutive year for leisure and not less than 24 hours, business and other purposes". Tourism can be domestic (within the traveller's own country) or international. Hosagrahar: Culture: at the heart of SDGs. UNESCO-Kurier, April-Juni 2017. Victoria Helen MacFarlane was born in Callander, Perthshire on 25 November 1897, the daughter of Archibald McFarlane, a slater, and Isabella Rattray. At school, she alarmed her fellow pupils with her dire prophecies and hysterical behaviour, to the distress of her

mother (a member of the Presbyterian church). After leaving school, she worked at Dundee Royal Infirmary, and in 1916, she married Henry Duncan, a cabinetmaker and wounded war veteran, who was supportive of her supposed paranormal talents. A mother of six, she also worked part-time in a bleach factory. Although the process is informally called an election, the United Nations refers to it as the "procedure of selecting and appointing the next United Nations secretary-general." Since the General Assembly has never refused to appoint the person recommended by the Security Council, it can be said that the selection of the Security Council determines the next secretary-general of the United Nations. Few formal rules govern the selection of the secretary-general of the United Nations. The only guiding text, Article 97 of the United Nations Charter, states "The Secretary-General shall be appointed by the General Assembly upon the recommendation of the Security Council." The charter's minimal language has since been supplemented by other procedural rules and accepted practices. In 1904, thousands watched as Houdini tried to escape from special handcuffs commissioned by London's Daily Mirror, keeping them in suspense for an hour. Another stunt saw him buried alive and only just able to claw himself to the surface, emerging in a state of near-breakdown. While many suspected that these escapes were faked, Houdini presented himself as the scourge of fake spiritualists, pursuing a personal crusade to expose their fraudulent methods. As president of the Society of American Magicians, he was keen to uphold professional standards and expose fraudulent artists. He was also quick to sue anyone who imitated... 2acfb6f806 Between the second half of 2008 and the end of 2009, tourism numbers declined due to a severe economic slowdown (see Great Recession) and the outbreak of the 2009 H1N1 influenza virus. These numbers, however, recovered until the COVID-19 pandemic put an abrupt end to the growth. The United Nations World Tourism Organization has estimated that global international tourist arrivals might have decreased by 58% to 78% in 2020, leading to a potential loss of US\$0.9-1.2 trillion in international tourism receipts. 2acfb6f806 == Timeline == 2acfb6f806

Pocket-sized devices became available in the 1970s, especially after the Intel 4004, the first microprocessor, was developed by Intel for the Japanese calculator company Busicom. Modern electronic calculators vary from cheap, give-away, credit-card-sized models to sturdy desktop models with built-in printers. They became popular in the mid-1970s as the incorporation of integrated circuits reduced their size and cost. By the end of that decade, prices had dropped to the point where a basic calculator was affordable to most and they became common in schools. 2acfb6f806
