Trained at the École Polytechnique and at the École Nationale de la Statistique et de l'Administration Économique (ENSAE) in Paris, Malinvaud was a student of Maurice Allais. 6bca60dc50 Revealed preference theory arose because existing theories of consumer demand were based on a diminishing marginal rate of substitution (MRS). This diminishing MRS relied on the assumption that consumers make consumption decisions to maximise their utility. While utility maximisation was not a controversial assumption, the underlying utility functions could not be measured with great certainty. Revealed preference theory was a means to reconcile demand theory by defining utility... 6bca60dc50

Revealed preference Varian, 2005, prepared for Samuelsonian Economics and the 21st Century. Revealed preference models assume that the preferences of consumers can be revealed by their purchasing habits. Revealed preference theory, pioneered by economist Paul Anthony Samuelson in 1938, is a method of analyzing choices made by individuals, mostly used for comparing the influence of policies on consumer behavior.
