up a comprehensive list of words in English is important as a
reference when learning a language as it will show the equivalent
words you need to learn in the other language to achieve fluency. A
big list will constantly show you what words you don't know and what
you need to work on and is useful for testing yourself. You can use
the list to generate your own lists in whatever language you're
learning and to test yourself. Eventually these words will all be
translated into big lists in many different languages and using the
words in phrase contexts as a resource af77697f4e
