

99 Vw Passat Engine Diagram

Energy efficiency in transport is often described in terms of fuel consumption, fuel consumption being the reciprocal of fuel economy. Nonetheless, fuel consumption is linked with a means of propulsion which uses liquid fuels, whilst energy efficiency is applicable to any... b766da111b

Energy efficiency in transport The energy efficiency is also occasionally known as energy intensity. Both cars are rare The energy efficiency in transport is the useful travelled distance, of passengers, goods or any type of load; divided by the total energy put into the transport propulsion means. The inverse of the energy efficiency in transport is the energy consumption in transport. 77 L/100 km (102 mpg-imp). The energy input might be rendered in several different types depending on the type of propulsion, and normally such energy is presented in liquid fuels, electrical energy or food energy. It was surpassed only recently by the VW Lupo 3 L which consumes about 2. 82 L/100 km (100 mpg-imp). average of 2 b766da111b
