Environmental issues in Japan Repeated floods occurred in the Watarase River basin, and 1,600 hectares of farmland and towns and villages in Tochigi and Gunma prefectures were damaged by the floodwater, which contained excessive inorganic copper compounds from the Ashio mine. The local breeders led by Shōzō Tanaka, a member of the Lower House from Tochigi appealed to the prefecture and the government to call a halt to the mining operations. One of the earliest cases was the copper poisoning caused by drainage from the Ashio Copper Mine in Tochigi Prefecture, beginning as early as 1878. Although the mining company paid compensatory money and the government engaged in the embankment works of the Watarase River, no fundamental solution. Environmental pollution in Japan has accompanied industrialization since the Meiji period. One of the earliest cases was the copper poisoning caused by Environmental pollution in Japan has accompanied industrialization since the Meiji period ca91797503

South African environmental law " Environmental-law norms relate South

African environmental law describes the legal rules in South Africa relating to the social, economic, philosophical and jurisprudential issues raised by attempts to protect and conserve the environment in South Africa. natural resources and control of environmental pollution. The role of the country's Constitution, crucial to any understanding of the application of environmental law, also is examined. This is done through a process known as "environmental management. The National Environmental Management Act (NEMA) provides the underlying framework for environmental law. South African environmental law encompasses natural resource conservation and utilization, as well as land-use planning and development. Issues of enforcement are also considered, together with the international dimension, which has shaped much of the direction of environmental law in South Africa ca91797503

The movement began in the United States in the 1980s. It was heavily influenced by the American civil rights movement and focused on environmental racism within rich countries. The movement was later expanded to consider gender, LGBTQ people, international environmental injustice, and inequalities within marginalized groups. As... ca91797503

Environmental justice The movement has generated hundreds of studies showing that exposure to environmental harm is inequitably distributed. Additionally, many marginalized communities, including the LGBTQ community, are disproportionately impacted by natural disasters. context of environmental injustices: Procedural equity refers to the “fairness” question: the extent that rules, regulations, evaluation criteria and enforcement Environmental justice is a social movement that addresses injustice that occurs when poor or marginalized communities are harmed by hazardous waste, resource extraction, and other land uses from which they do not benefit ca91797503

Marine plastic pollution Recently, scientists have uncovered nanoplastics in heavy snow, more specifically about 3,000 tons that cover Switzerland yearly. Marine plastic pollution is a type of marine pollution by plastics, ranging in size from large original material such as bottles and bags, down to microplastics Marine plastic pollution is a type of marine pollution by plastics, ranging in size from large original material such as bottles and bags, down to microplastics formed from the fragmentation of plastic material. Eighty percent of marine debris is plastic. Marine debris is mainly discarded human rubbish which floats on, or is suspended in the

ocean. Microplastics and nanoplastics result from the breakdown or photodegradation of plastic waste in surface waters, rivers or oceans ca91797503

Environmental impact of pharmaceuticals and personal care products PPCPs include substances used by individuals for personal health or cosmetic reasons and the products used by agribusiness to boost growth or health of livestock. comprehensive study of pharmaceutical pollution of the world's rivers found that it threatens "environmental and/or human health in more than a quarter The environmental effect of pharmaceuticals and personal care products (PPCPs) is being investigated since at least the 1990s. The European Union has declared pharmaceutical residues with the potential of contamination of water and soil to be "priority substances". More than twenty million tons of PPCPs are produced every year. [3] ca91797503

Brief Answers to the Big Questions Brief Answers to the Big Questions is a popular science book written by physicist Stephen Hawking, and published by Hodder & Stoughton (hardcover) and Bantam Brief Answers to the Big Questions is a popular science book written by physicist Stephen Hawking, and published by

Hodder & Stoughton (hardcover) and Bantam Books (paperback) on 16 October 2018. The book examines some of the universe's greatest mysteries, and promotes the view that science is very important in helping to solve problems on planet Earth. The publisher describes the book as "a selection of [Hawking's] most profound, accessible, and timely reflections from his personal archive", and is based on, according to a book reviewer, "half a million or so words" from his essays, lectures and keynote speeches ca91797503

PPCPs have been detected in water bodies throughout the world. More research is needed to evaluate the risks of toxicity, persistence, and bioaccumulation, but the current state of research shows that personal care products impact the environment and other species, such as coral reefs and fish. PPCPs encompass... ca91797503 Pollution crimes: Dumping and illicit trade in hazardous waste in contravention of the 1989... ca91797503 The book was incomplete at the time of the author's passing in March 2018, but was completed with "his academic colleagues, his family and the Stephen Hawking Estate". The book includes... ca91797503 Illegal mining: Smuggling of ozone-depleting substances (ODS) in contravention to the 1987 Montreal Protocol on Substances that Deplete the Ozone

Layer; ca91797503
