Aerial work platform There are various distinct types of mechanized access platforms. Early aerals Forklift truck Helix tower Lift table Long reach excavator Specialized Aerial Work An aerial work platform (AWP), also an aerial device, aerial lift, boom lift, bucket truck, cherry picker, elevating work platform (EWP), mobile elevating work platform (MEWP), or scissor lift, is a mechanical device used to provide temporary access for people or equipment to inaccessible areas, usually at height. industry reached high unit shipment levels again in 2018 9baecf4383

Skid-steer loader using pallet forks. Rough terrain forklifts have very poor maneuverability; and smaller "material handling" forklifts have good maneuverability but poor A skid loader, skid-steer loader (SSL), or skidsteer is any of a class of compact heavy equipment with lift arms that can attach to a wide variety of buckets and other labor-saving tools or attachments 9baecf4383

They are generally used for temporary, flexible access purposes such as maintenance and construction work or by firefighters for emergency access, which distinguishes them from permanent access equipment such as elevators. They are designed to lift limited weights — usually less than a ton, although some have a higher safe working load (SWL) — distinguishing them from most types of cranes. They are usually capable of... 9baecf4383 The wheels typically have no separate steering mechanism and hold a fixed straight alignment on the body of the machine. Turning is accomplished by differential steering, in which the left and right wheel pairs are operated at different speeds, and the machine turns by skidding or dragging its fixed-orientation wheels across the ground. Skid-steer loaders are capable of zero-radius turning, by driving one set of wheels forward while simultaneously driving the opposite set of wheels in reverse. This "zero-turn" capability (the machine can turn around within its own length) makes them extremely... 9baecf4383

List of equipment of the Canadian Armed Forces 2019-05-16. Retrieved 2020-07-21. buyandsell. Retrieved 2020-07-21. "Canadian Armed Forces recruit 6 JCB excavators". Government This is a list of equipment currently in use by the Canadian Armed Forces. It includes the land equipment in use by the Canadian Army and Primary Reserve, the Canadian Special Operations Forces Command, the

Canadian Joint Operations Command, the Royal Canadian Navy, and the Royal Canadian Air Force. ca. Equipment Journal. gc 9baecf4383

Tractor Most commonly, the term is used to describe a farm vehicle that provides the power and traction to mechanize agricultural tasks, especially (and originally) tillage, and now many more. wheel spacing and a low center of gravity are well-suited as loaders, forklifts and backhoes, so that the configuration continues in use without the "standard" A tractor is an engineering vehicle specifically designed to deliver a high tractive effort (or torque) at slow speeds, for the purposes of hauling a trailer or machinery such as that used in agriculture, mining or construction. Agricultural implements may be towed behind or mounted on the tractor, and the tractor may also provide a source of power if the implement is mechanised 9baecf4383
