

Journeyman Carpenter Study Guide

George Meikle Kemp to labour as a journeyman was to provide his sometimes meagre income for the next 14 years. At the same time Kemp began an intense study of Gothic architecture George Meikle Kemp (25 May 1795–6 March 1844) was a self-taught Scottish architect who designed and built the Scott Monument in Edinburgh, Scotland. The poorly educated son of a shepherd, showing talents in woodworking as a child, he was apprenticed to a joiner and millwright

Davis–Bacon Act of 1931

Journeyman Carpenter Study Guide

superior skills and are more productive. It applies to "contractors and subcontractors performing on federally funded or assisted contracts in excess of \$2,000 for the construction, alteration, or repair (including painting and decorating) of public buildings or public works". Under this assumption, a union journeyman would be worth the additional money because he works faster, more accurately. The Davis-Bacon Act of 1931 is a United States federal law that establishes the requirement for paying the local prevailing wages on public works projects for laborers and mechanics.

As the name suggests, the original function of a millwright was the construction of flour mills, sawmills, paper mills and fulling mills powered by water or wind, made mostly of wood with a

Journeyman Carpenter Study Guide

limited number of metal parts. Since the use of these structures originates in antiquity... In rock drilling, the hole is usually not made through a circular cutting motion, though the bit is usually rotated. Instead, the hole is usually made by hammering a drill bit into the hole with quickly repeated short movements. The hammering action can be performed from outside the hole (top-hammer drill) or within the hole (down-the-hole drill, DTH). Drills used for horizontal drilling... As of 2016, the act increases the cost of wages in federal construction projects...

Millwright until it can be completely welded by a registered apprentice
