Recognizing Chords. (*Note: The new way that I
teach the chart of thirds is by using a circle of
thirds. The problem with my initial chart is that if
you were trying to identify something like an F-
major triad, you would need to extend the chart
by rewriting A and C on the top. Using a circle
means that the 7 letters will keep cycling
infinitely. Write the same 7 letters around a circle
going clockwise; after the notes of the chord you

are trying to identify are circled, look for the first circled letter when going clockwise to identify the root.) ee450fb20a Listening lists ee450fb20a 18 - The secondary dominants ee450fb20a 2 - Inversions of the tonic chord ee450fb20a Lesson 2 The order of Sharps ee450fb20a Larger Forms ee450fb20a Intermediate Theory Exams (RCM) ee450fb20a The Study of Orchestration (3rd edition) ee450fb20a more music ee450fb20a Section 6 ee450fb20a Where to Purchase Books (secondhand/used) ee450fb20a Outro ee450fb20a 5 - The arpeggio ee450fb20a Where to Buy / Access Resources ee450fb20a Harmonic Progression ee450fb20a Harmonisation \u0026 reharmonisation ee450fb20a Music Theory 101 for Guitar Players (90 Minute Course) - Music Theory 101 for Guitar Players (90 Minute Course) 1 hour, 30 minutes - Grab my **Music Theory**, for Guitar Players book here: <https://amzn.to/4gv2oes> New to Guitar?
