They have four-wheel drive, and were developed in the 1980s from the Land Rover series which was launched at the Amsterdam Motor Show in April 1948. "Updated: The Land Rover Defender (introduced as the Land Rover One Ten, joined in 1984 by the Land Rover Ninety, plus the extra-length Land Rover One Two Seven in 1985) is a series of British off-road cars and pickup trucks. Following the 1989 introduction of the Land Rover Discovery, the term 'Land Rover' became the name of a broader marque, no longer the name of a specific model; thus in 1990 Land Rover renamed them as Defender 90 and Defender 110 and Defender 130 respectively. co. Drawing up a comprehensive list of words in English is important as a reference when learning a language as it will show the equivalent words you need to learn in the other language to achieve fluency. You can use the list to generate your own lists in whatever language you're learning and to test yourself. A big list will constantly show you what words you don't know and what you need to work on and is useful for testing yourself. Eventually these words will all be translated into big lists in many different languages and using the words in phrase contexts as a resource

Internal combustion engines are often cooled by circulating a liquid called engine coolant through the engine block and cylinder head where it is heated, then through a radiator where it loses heat to the atmosphere, and then returned to the engine. Engine coolant is usually water-based, but may also be oil. It is common to employ a water pump to force the engine coolant to circulate, and also for an axial fan to force air through the radiator.
