The E53 X5 was developed just after the acquisition of Land Rover by BMW. As such, the vehicle shares many components and designs with both the Range Rover L322 model (specifically the hill descent system and off-road engine management system) and the BMW E39 5 Series (specifically engines and electronic systems). The entire in-car entertainment system (radio function, navigation system, television and telecommunications systems) are shared with other BMWs and L322. As a result, the earlier X5 models can be upgraded with newer BMW technologies (e.g. Bluetooth phone connectivity). The M6 model was introduced in 2005 in coupé and convertible body styles. It is powered by the S85 V10 engine shared with the E60 M5, and most M6s were produced with a 7-speed automated manual transmission ("SMG III").
