up a comprehensive list of words in English is
important as a reference when learning a
language as it will show the equivalent words
you need to learn in the other language to
achieve fluency. You can use the list to
generate your own lists in whatever language
you're learning and to test yourself. Eventually
these words will all be translated into big lists in
many different languages and using the words
in phrase contexts as a resource. A big list will
constantly show you what words you don't
know and what you need to work on and is
useful for testing yourself be5db30cb6
