

Economic Development Strategic Planning

Urban planning Traditionally, urban planning followed a top-down approach in master planning the physical layout of human settlements. Over time, urban planning has adopted a focus on the social and environmental "bottom lines" that focuses on using. The primary concern was the public welfare, which included considerations of efficiency, sanitation, protection and use of the environment, as well as taking account of effects of the master plans on the social and economic activities. Creating the plans requires a thorough Urban planning (also called city planning or town planning in some contexts) is the process of developing and designing land use and the built environment, including air, water, and the infrastructure passing into and out of urban areas, such as transportation, communications, and distribution networks, and their accessibility. sub-fields such as land-use planning, zoning, economic development, environmental planning, and transportation planning b7f1d94bbf

Waves of economic development Often these waves operate concurrently (thus, overlapping), or within a single economic development plan. instances improves the socio-economic standing of its citizens through equity planning during the strategic economic development process. This wave is also Economic development research has currently identified five phases, or "waves" of economic development practice. The differences between these waves are shaped by historical factors, the economic climate during historical periods, and leaders' response to these forces, which over time have created five strategies that differ from their predecessors. The five waves have all been designed to accomplish the same goal: to help entrepreneurs and businesses discover and expand markets for their services b7f1d94bbf

Strategic planning A strategy describes how the ends (goals) will be achieved by the means (resources) in a given span of time. Often, Strategic planning is long term and organizational action steps are established from two to five years in the future. "Strategy" has many definitions, but it generally involves setting major goals, determining actions to achieve these goals, setting a timeline, and mobilizing resources to execute the actions. Strategic planning or corporate planning is an activity undertaken by an organization through which it seeks to define its future direction and makes decisions Strategic planning or corporate planning is an activity undertaken by an organization through which it seeks to define its future direction and makes decisions such as resource allocation aimed at achieving its intended goals. Strategy can be planned ("intended") or can be observed as a pattern of activity ("emergent") as the organization adapts to its environment or competes b7f1d94bbf
