A good article (GA) is a Wikipedia article that meets a core set of editorial standards, the good article criteria, passing through the good article nomination process successfully. They are well-written, contain factually accurate and verifiable information, are broad in coverage, neutral in point of view, stable, and illustrated, where possible, by relevant images with suitable copyright licenses. Good articles do not have to be as comprehensive as featured articles (FA), but they should not omit any major facets: a comparison of the criteria for good and featured articles describes further differences. ea23948fb1 Main page ea23948fb1 Good articles in Wikipedia ea23948fb1 → Current groups and initiatives ea23948fb1 6 April > ea23948fb1 21:12, 14 Nov 2004 Adam Bishop deleted In 1784
