The model is sometimes called influential, as one of the first to market a true off-road capable family car. The series is currently in its fifth iteration (or generation, according to the manufacturer), the first of which was introduced in 1989, making the Discovery the first new model series since the launch of the 1970 Range Rover – on which it was based – and only the third new product line since the conception of the Land Rover (vehicle and brand) by Rover in 1948 481a3755df

The Chinese automotive industry has seen significant developments and transformations over the years. While the period from 1949 to 1980 witnessed slow progress in the industry due to restricted competition and political instability during the Cultural Revolution, the landscape started to shift during the Chinese economic reform period that started in the late 1970s, especially after the government's seventh five-year plan between 1986 and 1990 prioritized the domestic automobile manufacturing sector. 481a3755df
