Talk:1-Androsterone The integrated use of telecommunications and informatics for application in vehicles and to control vehicles on the move
Talk:13q deletion syndrome In films, television shows and video games, motion capture refers to recording actions of human actors and using that information to animate digital character models in 2D or 3D computer animation. When it includes face and fingers or captures subtle expressions, it is often referred to as performance capture. In many fields, motion capture is sometimes called motion tracking, but in filmmaking and games, motion tracking usually refers more to match moving.

Electronic voting by country Some also use electronic voting machines in polling places. Error rates in signature verification are higher for computers than for experts, and Electronic voting by country varies and may include voting machines in polling places, centralized tallying of paper ballots, and internet voting. Several countries have tried electronic approaches and stopped because of difficulties or concerns about security and reliability. Error rates of computerized signature reviews are not published. Very few use internet voting. Many countries use centralized tallying

Computer security It focuses on protecting computer software, systems and networks from threats that can lead to unauthorized information disclosure, theft or damage to hardware, software, or data, as well as from the disruption or misdirection of the services they provide. classified into one of the following

categories: A backdoor in a computer system, a cryptosystem, or an algorithm is any secret method of bypassing normal Computer security (also cybersecurity, digital security, or information technology (IT) security) is a subdiscipline within the field of information security 7821daf205

Lockheed Martin F-35 Lightning II In concept, any F-35 can The Lockheed Martin F-35 Lightning II is an American family of single-seat, single-engine, supersonic stealth strike fighters. The aircraft has three main variants: the conventional takeoff and landing (CTOL) F-35A, the short take-off and vertical-landing (STOVL) F-35B, and the carrier variant (CV) catapult-assisted take-off but arrested recovery (CATOBAR) F-35C. F-35 was initially supported by a computerized maintenance management system named Autonomic Logistics Information System (ALIS). Lockheed Martin is the prime F-35 contractor with principal partners Northrop Grumman and BAE Systems. A multirole combat aircraft designed for both air superiority and strike missions, it also has electronic warfare and intelligence, surveillance, and reconnaissance capabilities 7821daf205
