Wikipedia:Unusual articles These articles are verifiable, valuable contributions to the encyclopedia, but are a bit odd, whimsical, or something one would not expect to find in Encyclopædia Britannica. We should take special care to meet the highest standards of an encyclopedia with these articles lest they make Wikipedia appear idiosyncratic. If you wish to add an article to this list, the article in question should preferably meet one or more of these criteria:. We should take special care to meet the highest standards of an encyclopedia with these articles Of the over seven million articles in the English Wikipedia there are some articles that Wikipedians have identified as being somewhat unusual. one would not expect to find in Encyclopædia Britannica 7d35b02505

Extracting usable metal from iron ores requires kilns or furnaces capable of reaching 1,500 °C (2,730 °F), about 500 °C (900 °F) higher than that required to smelt copper. Humans started to master that process in Eurasia during the 2nd millennium BC and the use of iron tools and weapons began to displace copper alloys – in some regions, only around 1200 BC. That event is considered the transition... 7d35b02505 Current or next drive Drive archives FAQ 7d35b02505

List of Toon In with Me episodes (1964), Blue Cat Blues (1956), Hospitaliky (1937), One Droopy Knight (1957), A Sheep in the Deep (1962) 15 15 "Bill Finds the User's Manual" January 22 This is the list of episodes of the American live-action/animated anthology comedy television series Toon In with Me. The show premiered on January 1, 2021, on MeTV. The article is something a reasonable person would not expect to find in a standard encyclopedia. 7d35b02505

Fracking in the United States The output from these wells makes up 43% of the oil production and 67% of the natural gas production in the United States. Environmental safety and health concerns about hydraulic fracturing emerged in the 1980s, and are still being debated at the state and federal levels. According to the Department of Energy (DOE), by 2013 at least two million oil and gas wells in the US had been hydraulically fractured, and that of new wells being drilled, up to 95% are hydraulically fractured. Black Warrior Basin and the Raton Basin, but not in others, such as the Powder River Basin, depending on the local geology. Injected volumes tend to be Fracking in the United States began in 1949 7d35b02505
