76b0998197 In Avengers Academy: Marvel's Voices, M'Kraan was reintroduced as a new character separate from the M'Kraan Crystal, being created by future versions of Billy and Tommy Maximoff. M'Kraan is a

living embodiment of multiversal convergence and nexus energy, who exists as a living nexus point between realities, rather than as an object or artifact. She is essentially the concept of the Nexus of Realities given form and awareness. She appears as a cosmic guide and stabilizing presence, interacting with the young heroes not through battle, but through meaning, reflection, and transformation. This version of M'Kraan conceptually aligns with entities like the Phoenix Force, which represents life and transformation, and with figures such as the Demiurge, who represents creation and destiny, and Kid Immortus, who represents the time axis of reality.
