**Knowledge** While there is wide agreement among philosophers that propositional knowledge is a form of true belief, many controversies focus on justification. Knowledge of facts, also called propositional Knowledge is an awareness of facts, a familiarity with individuals and situations, or a practical skill. Knowledge is an awareness of facts, a familiarity with individuals and situations, or a practical skill. These controversies intensified in the latter half of the 20th century due to a series of thought experiments called Gettier cases that provoked alternative definitions. This includes questions like how to understand justification, whether it is needed at all, and whether something else besides it is needed. Knowledge of facts, also called propositional knowledge, is often characterized as true belief that is distinct from opinion or guesswork by virtue of justification 5dd0cdbcf7

While theology attempts to understand the transcendent or supernatural according to traditional religious accounts, religious studies takes a more scientific and objective approach, independent of any particular religious viewpoint. Religious studies thus draws upon multiple academic disciplines and methodologies including anthropology, sociology, psychology, philosophy, and history of religion. 5dd0cdbcf7 The European study of the region formerly known as "the Orient" had primarily religious origins, which have remained an important motivation until recent times.
