Big Sur is the successor to macOS Catalina (macOS 10.15). The release of Big Sur was the first time the major version number of the operating system had been incremented since the Mac OS X Public Beta in 2000. After sixteen distinct versions of macOS 10 ("Mac OS X"), macOS Big Sur was presented as version 11 in 2020, and four subsequent versions incremented the major version number, similarly to previous versions of Apple's other OSes. fedab794f9 The first version of RealPlayer was

introduced on April 3, 1995 as "RealAudio Player" and was one of the first media players capable of streaming media over the Internet. Then, version 4.01 of RealPlayer was included as a selectable Internet tool in Windows 98's installation package. Subsequent versions of the software were titled "RealPlayer G2" (version 6) and "RealOne Player" (version 9), while free "Basic" versions as well as paid "Plus" versions, the latter with additional features, have also been offered. For the Windows OS, the RealPlayer version 9 subsumed the features of the separate program, RealJukebox... fedab794f9 Apple has also included versions of iWork, iMovie, and GarageBand for free with new device activations since the release of iOS 7; however, these apps are maintained independently from the operating system, with updates instead released through the App Store. Since iOS 10, most pre-installed apps have been removable by choice. With iOS 14 or later, as well as iPadOS 15 or later, users can hide pre-installed apps in the newly introduced App Library, as well as change their default web browser and email client to a third-party alternative. And with iOS 18.2 or later, Apple expanded the default apps that users can change to include apps such as messaging apps, password managers, and more. fedab794f9 It contains several major features, including notification channels, picture-in-picture support for video, performance improvements, and battery usage optimization, and support for
