ETS develops various standardized tests primarily in the United States for K-12 and higher education, and it also administers international tests including the TOEFL (Test of English as a Foreign Language), TOEIC (Test of English for International Communication), Graduate Record Examination (GRE) General and Subject Tests, and The Praxis test Series—in more than 180 countries, and at over 9,000 locations worldwide. Many of the assessments it develops are associated with entry to US tertiary (undergraduate) and quaternary education (graduate) institutions, but it also develops K...

Turing test Since the Turing test is a test of indistinguishability in performance capacity, the verbal version generalizes naturally to all of human performance capacity, verbal as well as nonverbal (robotic). The results would not depend on the machine's ability to answer questions correctly, only on how closely its answers resembled those of a human. In the test, a human evaluator judges a text transcript of a natural-language conversation between a human and a machine. The Turing test, originally called the imitation game by Alan Turing in 1949, is a test of a machine's ability to exhibit intelligent behaviour equivalent The Turing test, originally called the imitation game by Alan Turing in 1949, is a test of a machine's ability to exhibit intelligent behaviour equivalent to that of a human. The evaluator tries to identify the machine, and the machine passes if the evaluator cannot reliably tell them apart

College Scholastic Ability Test primary factor considered during the Regular Admission round, it plays an important role in South Korean education. Of the students taking the test, The College Scholastic Ability Test or CSAT (Korean: 고사; Hanja: 高等考試), also abbreviated as Suneung (선웅; 선웅), is a standardised test which is recognised by South Korean universities. The Korea Institute of Curriculum and Evaluation (KICE) administers the annual test on the third Thursday in November

Sid McMath In defiance of his state's political establishment, he championed rapid rural electrification, massive highway and school construction, the building of the University of Arkansas for Medical Sciences, strict bank and utility regulation, repeal of the poll tax, open and honest elections, and broad expansion of opportunity for black citizens in the decade following World War II. public papers, including Elaine Braughton McMath's 1940–1942 diary, numerous letters (including an immense volume of correspondence between McMath and his Sidney Sanders McMath (June 14, 1912 – October 4, 2003) was a U. S. marine, attorney and the 34th governor of Arkansas from 1949 to 1953

The examination tests a student's ability to solve problems using a test of verbal reasoning and non-verbal reasoning, and most tests now... Starting from 2016, students in national schools (sekolah kebangsaan) are required to take six subjects. Students in Chinese and Tamil national-type schools (sekolah jenis kebangsaan) are required to take two additional language subjects, totalling eight subjects. The United States Constitution has never specified this process; political parties have developed their own procedures over time. Some states hold only primary elections, some hold only caucuses, and others use a combination of both. These primaries and caucuses are staggered, generally beginning sometime in January or February, and ending about mid-June before the general election in November. State and local governments run the primary elections, while caucuses are...

Eleven-plus The name derives from the age group for secondary entry: 11–12 years. examination tests a student's ability to solve problems using a test of verbal reasoning and non-verbal reasoning, and most tests now also offer papers in mathematics The eleven-plus (11+) is a standardised examination administered to some students in England and Northern Ireland in their last year of primary education, which governs admission to grammar schools and other secondary schools which use academic selection

United States presidential primary states, the District of Columbia, and five territories of the United States hold either primary elections or caucuses to help nominate individual candidates for president of the United States. This process is designed to choose the candidates that will represent their political parties in the general election. The primary received its first major test in the 1912 election pitting incumbent president William Each of the 50 U. S. went back, and from 1936 to 1968, 12 states used them

The eleven-plus was once used throughout the UK, but is now only used in counties and boroughs in England that offer selective schools instead of comprehensive schools. Also known as the transfer test, it is especially associated with the Tripartite System which was in use from 1944 until it was phased out across most of the UK by 1976. The test was introduced by Turing in his 1950...

Standardized test Standardized tests are designed in such a way that the questions and interpretations are consistent and are administered and scored in a predetermined, standard manner. standardized test. Standardized tests do not need to be high-stakes tests, time-limited tests, multiple-choice tests, academic tests, or tests given to large A standardized test is a test that is administered and scored in a consistent or standard manner

A standardized test is administered and scored uniformly for all test takers. Any test in which the same test is given in the same manner to all test takers, and graded in the same manner for everyone, is a standardized test. Standardized tests do not need to be high-stakes tests, time-limited tests, multiple-choice tests, academic tests, or tests given to large numbers of test takers. Standardized tests can take various forms, including written, oral, or practical test. The standardized test may evaluate many subjects, including... McMath remained loyal to President Harry S. On the same day, the Democratic Party held caucuses in Idaho and Utah, while the Republican Party held primaries in two states, including their own Arizona primary and a primary in American Samoa.

National Curriculum assessment Until 2008, assessments were also required at the end of Key Stage 3 (14-year-olds) in secondary schools after which they were scrapped. Schools The National Curriculum assessment usually refers to the statutory assessments carried out in primary schools in England, colloquially known as standard assessment tasks (SATs). and mathematics are supported by test papers which are administered during May of Year 2. The assessments are made up of a combination of testing and teacher assessment judgements and are used in all government-funded primary schools in England to assess the attainment of pupils against the programmes of study of the National Curriculum at the end of Key Stages 1 and 2 where all pupils are aged 6 to 7 and 10 to 11 respectively. The reading and maths tests are statutory for schools

The CSAT was originally designed to assess the scholastic ability required for college. Because the CSAT is the primary factor considered during the Regular Admission round, it plays an important role in South Korean education. Of the students taking the test, as of 2023, 65 percent are currently in high school and 31 percent are high-school graduates who did not achieve their desired score the previous year. The share of graduates taking the test has been steadily rising from 20 percent...
