Futures studies Predictive techniques, such as forecasting, can be applied, but

contemporary futures studies scholars emphasize the importance of systematically exploring alternatives. Part of the discipline thus seeks a systematic and pattern-based understanding of past and present, leading to the preferable future. It is in this regard, that futures studies evolves from an academic exercise to a more traditional business-like practice. Futures studies, futures research or futurology is the systematic, interdisciplinary and holistic study of social and technological advancement, and other environmental trends, often for the purpose of exploring how people will live and work in the future. Futures studies (colloquially called "futures" by many of the field's practitioners) seeks to understand what is likely to continue and what could plausibly change. In general, it can be considered as a branch of the social sciences and an extension to the field of history 8a42079811

History of mathematics From 3000 BC the Mesopotamian states of Sumer, Akkad and Assyria, followed closely by Ancient Egypt and the Levantine state of Ebla began using arithmetic, algebra and geometry for taxation, commerce, trade, and in astronomy, to record time and formulate calendars. Before the modern age and worldwide spread of knowledge, written examples of new mathematical developments have come to light only in a few locales. and allowed calculations to be carried out on the suan pan, or Chinese abacus. Due to the wide range of accounting services and recent corporate collapses, attention has been drawn to ethical standards accepted within the accounting profession. These collapses have resulted in a widespread disregard for the reputation of the accounting profession. To combat the criticism and prevent fraudulent... 8a42079811 Wearables may be for general use, in which case they are just a particularly small example of mobile computing. Alternatively, they may be for specialized purposes such as fitness trackers. They may incorporate special sensors such as accelerometers, heart rate monitors, or on the more advanced side, electrocardiogram (ECG) and blood oxygen saturation (SpO2) monitors. Under the definition of wearable computers, we also include novel user interfaces such as Google Glass, an optical head-mounted display controlled by gestures. It may be that specialized wearables will... 8a42079811 Humans acquire culture through the learning processes of enculturation and socialization, which is shown by the diversity of cultures across societies. 8a42079811 The earliest mathematical texts available are from Mesopotamia and Egypt – Plimpton 322 (Babylonian c. 2000 – 1900 BC), the Rhind Mathematical Papyrus (Egyptian c. 1800 BC) and the Moscow Mathematical Papyrus (Egyptian c. 1890 BC).
