Retrieved March 19, 2017. AAA is a privately held not-for-profit national member association and service organization with over 60 million members in the United States and Canada. Its national headquarters are in Heathrow, Florida. "(disable javascript)";

There are APIs offered for almost all of Google's popular consumer products, like Google Maps, YouTube, Google Apps, and others. As part of phasing out Google Labs, Google has shut down Sputnik. All current Sputnik tests have been incorporated into ECMA's Test262 test suite. The Caja project was led by Jasvir Nagra with the JavaScript portion designed by Google research scientist Mark S. Miller in 2008 as a JavaScript implementation for "virtual iframes" based on the principles of object-capabilities. It would take JavaScript (technically, ECMAScript 5 strict mode code), HTML, and CSS input and rewrite it into a safe subset of HTML and CSS, plus a single JavaScript function with no free variables. That means the only way such a function could modify an object, was if it... The OpenSocial Foundation has integrated or supported various Open Web technologies, including OAuth and OAuth 2.0, Activity Streams, and Portable Contacts. Since its inception on November 1, 2007, applications that implement the OpenSocial APIs can interoperate with any social network system that supports them.

Google Developers The AdSense Google Developers (previously Google Code) is Google's site for software development tools and platforms, application programming interfaces (APIs), and technical resources. A developer can create a map to a site, a dynamic search box, or download feeds with just a few lines of javascript. entirely in JavaScript and HTML. The site contains documentation on using Google developer tools and APIs—including discussion groups and blogs for developers using Google's developer products

OpenSocial Proxied content was OpenSocial is a public specification that outlines a set of common application programming interfaces (APIs) for web applications. It has since evolved into a runtime environment that allows third-party components, regardless of their trust level, to operate within an existing web application. "The OpenSocial Javascript API was streamlined to make it lightweight while retaining the power of the old Javascript API. developers. Initially designed for social network applications, it was developed collaboratively by Google, MySpace and other social networks

In Minecraft, players explore a procedurally generated, three-dimensional world with virtually infinite terrain made up of voxels. Players can discover and extract raw materials, craft tools and items, and build structures, earthworks, and machines. Depending on the game mode, players can fight hostile mobs, as well as cooperate with or compete against other players in multiplayer. The game's large community offers a wide variety of user-generated content, such as modifications, servers, player skins, texture...

Sputnik (JavaScript conformance test) It contained over 5000 tests that touched all aspects of the JavaScript language. The purpose of the test suite was to determine how well a JavaScript implementation adheres to the ECMA-262 Sputnik was a JavaScript conformance test suite. Sputnik was a JavaScript conformance test suite. The purpose of the test suite was to determine how well a JavaScript implementation adheres to the ECMA-262 specification, 5th edition, looking only at those features that were also present in the 3rd edition

German Wikipedia [citation needed] In 2014, the Wikimedia Foundation (WMF) "superprotected" a JavaScript file on German Wikipedia so that no German editors, not even administrators The German Wikipedia (German: Deutschsprachige Wikipedia) is the German-language edition of Wikipedia, a free and publicly editable online encyclopedia

Random password generator Here is the simple Javascript code that generate the strong password using web crypto API. getRandomValues() method. Many computer A random password generator is a software program or hardware device that takes input from a random or pseudo-random number generator and automatically generates a password. passwords using the crypto

Minecraft coinciding with Minecraft's 10th anniversary, a JavaScript recreation of an old 2009 Java Edition build named

Minecraft Classic was made available to Minecraft is a sandbox game developed and published by Mojang Studios. Formally released on 18 November 2011 for personal computers following its initial public alpha release on 17 May 2009, it has been ported to numerous platforms, including mobile devices and various video game consoles a92bffddd3

Founded on 16 March 2001, it is the second-oldest Wikipedia edition (after the English Wikipedia). It has 3,044,883 articles, making it the third-largest edition of Wikipedia by number of articles as of 2024, behind the English Wikipedia and the mostly bot-generated Cebuano Wikipedia. It has the second-largest number of edits and of active users behind the English Wikipedia. On 7 November 2011, the German Wikipedia became the second edition of Wikipedia, after the English edition, to exceed 100 million page edits. a92bffddd3

GYP (software) use case. Other projects that migrated from GYP to GN include the V8 Javascript engine, WebRTC and Dart. Software projects that are still built using GYP (generate your projects) is an obsolete build automation tool created in 2011 by Google a92bffddd3
