Traditional mathematics intense during the 1990s. Traditional mathematics education has been challenged by several reform movements over the last several decades, notably new math, a now largely abandoned and discredited set of alternative methods, and most recently reform or standards-based mathematics based on NCTM standards, which is federally supported and has been widely adopted, but subject to ongoing criticism. This contrasts with non-traditional approaches to math education.) A traditional sequence early in the 20th century would leave topics such as algebra or geometry entirely for high Traditional mathematics (sometimes classical math education) was the predominant method of mathematics education in the United States in the early-to-mid 20th century.
