Involuntary organ harvesting was once legal on criminals, but outlawed in 2015. Growing concerns about possible ethical abuses arising from coerced consent and corruption led medical groups and human rights organizations, by the 1990s, to condemn the practice. These concerns resurfaced in 2001, when a Chinese asylum-seeking doctor testified that he had taken part in organ extraction operations. In 2006, allegations emerged that many Falun Gong practitioners had been killed to supply China's organ transplant industry. An initial investigation stated "the source of 41,500 transplants for the six... The identity document is used to connect a person to information about the person, often in a database.
