

Mci Bus Manuals

The ancestors of the X-Series can be traced back to 1984, when Prevost released the widebody XL Series of motorcoaches, including the LeMirage XL. A 45-foot model was added in 1992 as the XL-45, which was updated with a second generation in 2000 as the LeMirage XL-II. The third generation bus was released in 2006 as the X3-45, which competes with the MCI D-Series.

Maryland Transit Administration There are 80 bus lines serving the Baltimore Metropolitan Area, along with rail services that The Maryland Transit Administration (MTA) is a state-operated mass transit administration in Maryland, and is part of the Maryland Department of Transportation (MDOT). system throughout the Washington-Baltimore metropolitan area. In 2024, the system had a ridership of 67,092,400, or about 211,100 per weekday as of the first quarter of 2025. There are 80 bus lines serving the Baltimore Metropolitan Area, along with rail services that include the Baltimore Light RailLink, Baltimore Metro Subway, and MARC Train. The MTA operates a comprehensive transit system throughout the Washington-Baltimore metropolitan area

Transportation Manufacturing Corporation The Roswell, New Mexico plant was Transportation Manufacturing Corporation (TMC) was a bus manufacturer based in Roswell, New Mexico. In 1994, MCI sold the TMC plant to NovaBus, who closed it in 2003. features maximized the capacity of the trailer

With nearly half of Baltimore residents lacking access to a car, the MTA is an important part of the regional transit picture. The system has many connections to other transit agencies of Central Maryland, Washington, D.C., Northern Virginia, and... Montreal to Boston

MTA Regional Bus Operations MTA Regional Bus Operations (RBO) is the bus operations division of the Metropolitan Transportation Authority in New York City. The system's fleet of over 5,000 buses is the largest in the United States, and many of its over 300 routes operate 24/7. The MTA operates local MTA Regional Bus Operations (RBO) is the bus operations division of the Metropolitan Transportation Authority in New York City. The MTA operates local, rush, limited-stop, express, and Select Bus Service (bus rapid transit) services across the city of New York, forming a key part of the city's transportation system

Toronto to Buffalo (with connections to New York City) Vancouver to Seattle The Scenicruiser became an icon of the American way of life due to its presence throughout the United States in cities and along highways and popularity with the traveling public. The name was a portmanteau of the words "scenic" and "cruiser".

Greyhound Canada vehicles MCI MC-7 suburban coach Twin Coach 38S transit bus MCI Courier 100, 100A, 100B, 100C suburban coach MCI Courier 200, 200A, 200B suburban coach MCI Courier Greyhound Canada Transportation ULC (Greyhound Canada) was an intercity coach service that began as a local British Columbia bus line in the early 1920s, expanded across most of Canada, and became a subsidiary of the American Greyhound Lines in 1940

Also commonly known by the nickname "Fishbowl" (for its original six-piece rounded windshield, later replaced by a two-piece curved pane), it was produced until 1977 in the United States, and until 1985 in Canada. The side windows were trapezoidal in shape, featuring a forward slant, and GM introduced quad headlights, which had first appeared in cars in 1958. More than 44,000 New Look buses were built. Its high production figures and long service career made it an iconic North American transit bus. The design is listed as U.S. patent D182,998 by...

GM Buffalo bus "Buffalo" coaches have a stepped roof in front, and the first three rows of seats are at different levels, mounted on stepped floors resembling some types of theater seating. Motor Coach Industries (MCI), and by the mid-1960s, it had switched most of its purchasing over to MCI products. In the 1970s, MCI products began to overtake The GM "Buffalo" bus is a colloquial term referring to several models of intercity motorcoaches built by the GM Truck and Coach Division at Pontiac, Michigan, between 1966 and 1980

Prevost H-Series "Prevost H3-41 & H3-45 Operator's Manual (PA-1164)" design. The Prevost H-Series is a family of motorcoaches and conversion shells designed and manufactured by Prevost, a subsidiary of Volvo Buses. The current model is the H3-45, which is a (nominal) 45-foot, 3-axle bus for the intercity bus and Class A conversion motorhome markets. By 2005, MCI had released its new E and J series coaches to compete with Prevost's new H3-45s

The first H-Series vehicle was released in 1985 as the H5-60, a 60-foot (nominal) articulated bus with five axles, including two steering axles in front. It was followed by the 40-foot rigid body H3-40 in 1989. After 45-foot buses were legalized, in 1994, Prevost released the H3-45 and updated the H3-40 to the 41-foot H3-41. Since then, the H-Series buses have been updated in 2002, 2009, and 2023. Production of the other models has been discontinued and the 45-foot H3-45 remains in production. It competes with the MCI J...

Prevost X-Series The current model is the X3-45, which is a (nominal) 45-foot, 3-axle bus for the intercity bus and Class A conversion motorhome markets. The X3-45 has a wheelbase of 334 The Prevost X-Series is a family of motorcoaches and conversion shells designed and manufactured by Prevost, a subsidiary of Volvo Buses. the LeMirage XL-II. The third generation bus was released in 2006 as the X3-45, which competes with the MCI D-Series

On May 13, 2021, Greyhound Canada permanently suspended operation in all of Canada. Cross-border routes to the United States would from that point forward be operated by Greyhound Lines (USA). MTA Regional Bus Operations was formed in 2008 to consolidate the MTA's bus operations, which currently consist of two operating companies. MTA New York City Bus operates citywide, with its origins in New York City's first municipal bus service in 1919. MTA Bus operates primarily in Queens, and was formed in 2006 to take over 7 private bus companies. The two... Montreal to New York City The company was formed in 1974 by Greyhound Bus Lines to manufacture Motor Coach Industries vehicles. In 1987, General Motors decided to close its bus division and sold the manufacturing rights of the Rapid Transit Series (RTS) bus and the Classic to Greyhound subsidiary, Motor Coach Industries. RTS production would move to the TMC plant in Roswell, New Mexico, while the Classic bus production would

remain in the former GM bus plant in Saint-Eustache, Quebec. Motor Coach Industries sold its Classic and RTS bus license to Nova Bus in 1993. 618fd51fd2 In 2018, Greyhound pulled out of Western Canada, preserving only domestic service in Ontario and Quebec, and trans-border routes to the United States. 618fd51fd2

PD-4501 Scenicruiser This led to the The GMC PD-4501 Scenicruiser, manufactured by General Motors (GM) for Greyhound Lines, Inc. Greyhound Corporation acquired a controlling interest in Motor Coach Industries (MCI), Limited, of Canada and by 1961 had full ownership of it. 1001 were made between 1954 and 1956. , was a three-axle monocoque two-level coach that Greyhound used from July 1954 into the mid-1970s 618fd51fd2

In 1990, TMC began development of an enclosed automobile-transport semitrailer. This trailer used small-diameter wheels to maximize interior space, and robotic... 618fd51fd2

GM "old-look" transit bus Production of most "old-look" models was stopped upon the release of the GM New-Look bus in 1959, however some smaller "old-look" models continued to be built until 1969. Yellow Coach was The GM "old-look" transit bus was a transit bus that was introduced in 1940 by Yellow Coach beginning with the production of the model TG-3201 bus. Approximately 38,000 "old-look" buses were built during the 29-year production run. The Yellow Coach badge gave way to the GM nameplate in 1944. "old-look" transit bus was a transit bus that was introduced in 1940 by Yellow Coach beginning with the production of the model TG-3201 bus. Yellow Coach was an early bus builder that was partially owned by General Motors (GM) before being purchased outright in 1943 and folded into the GM Truck Division to form the GM Truck & Coach Division. The "old-look" name is an unofficial retronym applied to this series of GM buses after the release of the GM New-Look series 618fd51fd2

The high-level design concept of Scenicruiser resembles some of the rolling stock of the passenger-carrying railroads of the United States and Canada, particularly their popular stainless steel dome cars. This type of two-level motorcoach body was common in the late 1940s in Western Europe, including Great Britain, where it was... 618fd51fd2

GM New Look bus com a great resource for bus repair, restoration and free manuals. lists of New Look buses, with serial numbers and original purchasers DieselBusParts. The GM New Look bus is a municipal transit bus that was introduced in 1959 by the Truck and Coach Division of General Motors to replace the company's previous coach, retroactively known as the GM "old-look" transit bus which was introduced in 1940 618fd51fd2
