Acid attack The ACCA directly impacts the criminal aspect of acid attacks, and allows for the death An acid attack, also called acid throwing, vitriol attack, or vitriolage, is a form of violent assault involving the act of throwing acid or a similarly corrosive substance onto the body of another "with the intention to disfigure, maim, torture, or kill". Acid attacks can lead to permanent, partial or complete blindness. Perpetrators of these attacks throw corrosive liquids at their victims, usually at their faces, burning them, and damaging skin tissue, often exposing and sometimes dissolving the bones. Crime Control Act (ACCA) and the Acid Control Act (ACA), respectively bd6a5849de

Bahá’í Faith in Greater Boston Rev. Wright were noted, materials donated, and lost, and then other scholars began to write about the religion. Early newspaper accounts of events were followed by papers on the precursor Bábí religion by Dr. local Unitarian church with answers to questions of such length and detail that it was claimed he must have memorized the answers beforehand. The community began to coalesce being near to Green Acre, founded by Sarah Farmer, who publicly espoused the religion from 1901. He compared The Bahá’í Faith in Greater Boston, a combined statistical area, has had glimpses of the religion in the 19th century arising to its first community of religionists at the turn of the century. Leaders rising to national prominence with. From then on, the institution would progressively be associated with Bahá’ís - a place where both locals and people from afar came to learn of the religion, and who officially took over controlling interest from 1913.
