Civic technology Users can
Civic technology, or civic
tech, is the idea of using
technology to enhance the
relationship between
people and government with
software for
communications, decision-
making, service delivery,
and political process. It
includes information and
communications technology
supporting government with
software built by
community-led teams of
volunteers, nonprofits,
consultants, and private
companies as well as
embedded tech teams

Bushfires in Australia
Bushfires have killed approximately 800 people in Australia since 1851, and billions of animals. Australian firefighters also make use of UAVs as a tool for combating fire. However, the fires can cause significant property damage and loss of both human and animal life. Eastern Australia is one of the most fire-prone regions of the world, and its predominant eucalyptus forests have evolved to thrive on the phenomenon of bushfire. Technologist Angus Dorney has observed that
