Comedy films are separated into two categories: short films and feature films. Any film over 40 minutes long is considered to be of feature-length (although most feature films produced since 1950 are considerably longer, those made in earlier eras frequently ranged from little more than an hour to as little as four reels, which amounted to about 44 minutes).

Wikipedia:Language learning centre/Word list A big list will constantly show you what words you don't know and what you need to work on and is useful for testing yourself. Eventually these words will all be translated into big lists in many different languages and using the words in phrase contexts as a resource. You can use the list to generate your own lists in whatever language you're learning and to test yourself. damson
